Summary of Incident and Actions Taken (in chronological order)

3/7/2021 -- 0717 hrs -- Rangers s.15(1)(f) and s.15(1)(f) attended Braemar Park at 0707 hrs for a regular routine patrol in the park. Upon arrival, rangers conducted a full routine foot patrol in the park. Rangers did not observe or locate any bylaw infractions or issues in the park. Furthermore, rangers conducted a check through the washroom facility and no issues were observed. End of report.

March 07, 2021 - 1340hrs. - Rangers s.15(1)(f) and s.15(1)(f) attended Victoria Park at approximately 0715hrs to unlock the facilities and at this time rangers noticed a Blue/grey tent on the South/West side of the park. Rangers approached the tent and awoke 1 male named s.22(1) and s.22(1), who did not give s.22(1) name. Rangers informed them that it was past 0700hrs and time to start to pack up. s.22(1) said they are getting up now and will pack down but it will take a few minutes, ranger agreed and said we will check back in a little bit. Rangers then departed from the park to attend another park. Rangers came back to Victoria Park at approximately 0848hrs and noticed the same tent still up. Rangers again approached the tent and spoke to s.22(1) who said s.22(1) was really tired and they were now getting up. The s.22(1) then exited the tent 5 minutes later and departed from the area. s.22(1) stayed and continued to pack down the tent. s.22(1) said that s.22(1) will be helping s.22(1) get an apartment in the next few days and that we won't have to see s.22(1) again. It took s.22(1) roughly 20 minutes to pack up all s.22(1) items at which time rangers then departed from the area with no further issues or concerns.

3/7/2021 -- 1730 hrs -- Rangers s.15(1)(f) and s.15(1)(f) attended Sunset Beach Park at 1719 hrs for a regular routine patrol in the park. Upon arrival, rangers conducted a full routine foot patrol in the park. Rangers did not observe or locate any bylaw infractions or issues in the park. End of report.

Sunday, March 3 2021 - 13:39 hrs - Rangers s.15(1)(f) and s.15(1)(f) attended Andy Livingstone Park at 7:51 conducting a patrol of the park and observed a large grey tent with orange stripe on the grass area by the eight ball. The eight ball is a large ball made out of concrete with concrete seating around it in the south east area of the park. The tent was not occupied at the time, no drug paraphernalia was observed and only a sleeping bag and a large piece of black luggage was left behind. Rangers decided to conduct a full patrol of the park and return to the tent thinking that perhaps someone had run off to use the washroom. .

A short while later, approximately 15 minutes, Rangers returned to the tent and it appeared to be in the same state as when originally located. Rangers decided to collapse the tent, departing Andy Livingstone to return later on in the day.

At 09:59 hrs Rangers s.15(1)(f) and s.15(1)(f) returned to Andy Livingstone Park to follow up with the tent. Rangers observed that tent had been fully erected and left in the same state as originally found. As there was not a

single person around claiming the tent Rangers decided to remove the tent from the park. Due to the rain, Rangers decided to dispose of the tent but store the suit case. The suit case was opened and it appeared to have some government type documents inside with the name, s.22(1) A photo copy of s.22(1) was observed with the same name.

March 7, 2021 -- 2045hrs -- Rangers s.15(1)(f) & s.15(1)(f) attended Tea Swamp at 1606hrs in response to a homelessness complaint. Upon arrival, the rangers patrolled the entire Park but did not observe the reported encampment. No further significant action.

Rangers did observe and locate a blue tent and green tarp on the southwest side of the park just on top of tennis courts. Rangers conducted a wellness check with the occupants named s.22(1) The occupants responded to be doing well. The occupants also had a Pitbull in the tent as well. Rangers educated the occupants the bylaws and protocols of having structures/tents in the park and needed to be collapsed down and packed into a mobile state by 7am. Rangers then asked the occupants to pack down tent and the occupants were compliant with the rangers. Rangers also removed a soggy brown blanket with a needle which was discarded. March 7th, 2021 - 1513hrs - Rangers DON and s.15(1)(f) attended David Lam Park at 1304hrs after being requested by s.22(1) to move along s.22(1) due to them "causing s.22(1) anxiety". Upon arrival, Rangers approached the blue tent and spoke with s.22(1). s.22(1) stated s.22(1) had gone to a meeting and should be back within an hour. Rangers informed s.22(1) that they needed to vacate this area today, as they had not complied with the structures bylaw. s.22(1) stated s.22(1) couldn't move the items as s.22(1) has a bad back, but s.22(1) would pack up all the items inside the tent until s.22(1) got back to move the items. Rangers stood by and waited for s.22(1) to return. After an hour of waiting, Rangers re-approached and informed s.22(1) that Rangers would need to start moving the items to the sidewalk, where they could move them after that to vacate the area. As Rangers were moving the carts to the sidewalk, s.22(1) returned, and was angry that Rangers had moved the carts to the sidewalk. After Rangers spoke with s.22(1) they were able to diffuse s.22(1) anger. Rangers offered the couple the ability to store 1 tote of items for them for 30 days, so they could be more mobile. The couple was open to the idea, so Ranger DON arranged for a PM team to come by later on and bring an empty tote for them to fill up for storage. s.22(1) and s.22(1) thanked Rangers, and continued to pack up their tent and items in order to move away from that location. Rangers thanked them and disengaged back to the yard for shift end.

3/7/21 | 2000hrs - At approx. 1605hrs, Rangers s.15(1) and s.15(1)(f) ECHO 1) attended David Lam Park in Vancouver, in full uniform, to follow-up on s.22(1) and s.22(1). Upon arrival, Rangers verbally engaged with s.22(1) who was sitting on a park bench with s.22(1) asleep in a sleeping bag on her lap. s.22(1) was somewhat calm with Rangers until s.22(1) woke up. Both became hostile with Rangers and were adamant that they were not going to pack up their belongings and vacate the area. Some bylaw infractions noticed by Rangers include, but not limited to are - Tenting within 25 meters of a sports field, Damaging a park, Occupying a portion of a park, Obstructing or interfering with any person in a park, Smoking in a park, and Dog not licensed.

Rangers contacted VPD to assist with getting s.22(1) and s.22(1) to pack up more of their belongings. Shortly after VPD attended, s.22(1) and s.22(1) angrily began moving more of their belongings off Park property and onto the sidewalk as the pair continued their verbal abuse towards Rangers and VPD.

Rangers to follow-up first thing in the morning on 3/8/21. It is suggested that Animal Control and VPD attend at the same time to assist.

Rangers cleared from David Lam Park at approx. 1740hrs once all of their property was outside of the park.

3/7/2021 -- 1006 hrs -- Rangers s.15(1)(f) and s.15(1)(f) attended Stanley Park at 1000 hrs for a regular routine patrol in the park. Upon arrival, rangers conducted a full routine foot patrol in the park. Rangers did observe and locate an abandoned camp just west of the yacht club in the forestry area. Rangers found a soaked quilt with clothes in an area along with needle which rangers disposed of. No other issues present at this time. End of report.

March 7th, 2021 - 1445hrs - Rangers s.15(1)(f) and s.15(1)(f) spent 2 hrs on Thursday morning, conducting patrols of Stanley Park. First up was the Beaver Lake area, north side, and South Creek Trail to investigate reports of 2 tents in the woods near the new spillway. Rangers checked the forested areas, but no structures were found. Rangers removed small amounts of human garbage along the trail. Several small offshoot trails leading from South Creek Trail were also checked for structures. None were found, but Rangers removed ½ truckload of garbage from these sites. Rangers then moved on to the west side of the park, checking sites along Bridle, Tatlow and Lees Trails. Another ½ truckload of human debris was removed along Tatlow Trail. A small amount was also picked up at Lees west of Tatlow, although a great deal more will have to be removed next week. In total 1 truckload of garbage was removed.

March 07 2021 -- 11:12 hrs -- Ranger s.15(1)(f) attended the forested area north of the Jericho pond at approximately 08:30 hrs. I conducted a routine patrol of the trail system and located an abandoned camp located between the s.22(1). The encampment consisted of a tent, a large gas scooter and a large amount of garbage, loose plastic, miscellaneous items and soiled belongings. The gas street legal gas scooter is 49cc Piaggio Fly scooter. Due to the scooter potentially containing gasoline and the fact that it was stashed/abandoned in a ecologically sensitive area, I removed the scooter. I observed that the license plate insurance was expired and that the ignition appeared to be punch/damaged. I transported the scooter and passed it on to the VPD Mounted Unit. Information and details were exchanged and VPD advised that they would attempt to contact the owner and then potentially have the scooter transported to the VPD property office. No additional follow up required for the scooter, a open hansen case remains to complete the clean up of the abandoned encampment.

Background to the report is that the reporting party alleges that this has been going on for a month, and that the subject has 'taken over' the handicapped stall. Summary of Incident and Actions Taken (in chronological order)

March 11th, 2021 - 1219hrs - Rangers DON and s.15(1)(f) attended David Lam Park at 0740hrs for reports of an encampment in the SW corner of the park. Upon arrival, Rangers noticed it was s.22(1) and s.22(1) camp, and they had only moved about half a block down the street from their previous location, but were still in the park. Rangers approached and introduced themselves, and s.22(1) yelled out that it was not 8am yet. Ranger DON informed s.22(1) that because s.22(1) was right beside the tennis courts, which was within 25m of a playing field/sports court, that it did not matter if it was 8am yet, as s.22(1) couldn't be set up in that location. s.22(1) didn't argue, but said s.22(1) would start to pack up when s.22(1) woke up. Ranger DON informed s.22(1) that since this is continued non-compliance in this location, that Rangers will be issuing them a Bylaw 11 decal notice, with a removal date for tomorrow morning (photo on Lead DON's phone and sent to lead email account). s.22(1) stated s.22(1) understood, as the couple had previously received one when they were camping at Sunset Beach. Ranger DON asked if s.22(1) needed any garbage bags to assist in their pack up, but s.22(1) responded with no. Rangers disengaged, stating they will be back later on to check on their progress of packing up.

March 11th, 2021 - 1221hrs - Rangers DON and s.15(1)(f) returned to David Lam Park at 1030hrs to check on s.22(1) and s.22(1) progress. Upon arrival, Rangers noticed there had been zero progress in packing down their structure. Rangers did not engage, at this time, as Ranger DON and Ranger CARTER will be discussing a plan with VPD as to next steps with this encampment.

March 11th, 2021 - 1430hrs - Rangers s.15(1)(f) and s.15(1)(f) conducted regular checks through Stanley Park, and dealt with the following:

Good Afternoon;

It being a lovely day in near spring, we are back, loading up for more intense searches for camps and structures in Stanley Park.

Unfortunately, our efforts were rewarded to day – not once, but twice.

The first this morning was a small fortification off s.22(1) near the s.22(1). The occupant was s.22(1) who had built a wooden shelter by weaving small logs into a near solid mass. He had been collecting items over several weeks...so much so that Rangers s.15(1)(f) and s.15(1)(f) hauled away a full truckload of items. Rangers returned after the first load to retrieve 7 stolen bicycles, tires and wheels (another full truckload). Later Park staff advised us of another camp in the woods off s.22(1) (in the steep section close to the s.22(1) s.22(1)).

The culprit here is the same individual that has returned for a record 4th time. The s.22(1) is aptly named, with the area festooned with s.22(1) regular calling cards. Rangers s.15(1)(f) and s.15(1)(f) tracked up the hill, removing all items, including mats, tarps, and homeless items, including a plethora of batteries. Two more truckloads of debris were removed.

March 11th, 2021 - 1315hrs - Rangers DON and s.15(1)(f) attended Kingcrest Park at 0853hrs for reports of a tent set up in the NW corner of the park. Upon arrival, Rangers located a green tent set up against the fence in the NW corner of the park. Rangers approached and introduced themselves, and a s.22(1) responded from within stating s.22(1) name was s.22(1). Rangers informed s.22(1) that this is the 3rd day of non-compliance and Rangers will issue a removal notice. s.22(1) pleaded with Rangers stating this is not the 3rd time and only the 2nd, and they had just slept in. Ranger DON re-iterated the bylaws, stating s.22(1) needed to be packed up and mobile by 8am, with s.22(1) arguing that Rangers and VPD had told s.22(1) otherwise, and said they could not sleep in the park, and needed to go to Strathcona. Rangers educated s.22(1) again that s.22(1) could in fact sleep in the park, but s.22(1) tent would need to be packed up and mobile. Once this was the case, s.22(1) was more than welcome to be in the park. s.22(1) stated they would be leaving the park later today as they had other plans, so Rangers decided not to hand them a removal notice, but informed them if they were here tomorrow and not in compliance with the bylaw, that they would receive a removal notice for the following day. s.22(1) understood and thanked Rangers.

Upon arrival, Rangers located a blue and grey tent set up in the NW corner of the park. Rangers approached and introduced themselves, and a s.22(1) responded from within. The s.22(1) popped s.22(1) head out and stated s.22(1) name was s.22(1). Rangers asked s.22(1) about ID, income assistance and outreach. s.22(1) stated s.22(1) was working with s.22(1) and had income assistance, but did not have ID. s.22(1) stated s.22(1) had lost s.22(1) s.22(1) and needed it to obtain ID. s.22(1) stated s.22(1) is a Canadian citizen though, and that's how s.22(1) is able to get income assistance. Rangers informed s.22(1) to go to Carnegie as they could assist in getting s.22(1) in contact with an embassy in order to obtain a new passport.

Rangers then educated s.22(1) on the bylaw regarding structures in parks and asked to immediately put out a lit candle inside of s.22(1) tent. Rangers also noticed cookers inside of the tent, as well as a needle and drug paraphernalia in and around the tent. Rangers informed s.22(1) not to use drugs inside of the park. s.22(1) stated s.22(1) needed 30 minutes to pack up, which Rangers agreed to.

03/11/2021 - 1030HRS - At 0945HRS Rangers s.15(1)(f) and s.15(1)(f) attended EMERY BARNES PARK for a case of a structure set up within the park. Rangers arrived on scene and witnessed a GREY/WHITE TENT set up on the EASTSIDE of the park next to the Dog Park. Rangers dispatched a level two timer before approaching the timer. Rangers spoke with a s.22(1) individual named s.22(1). Rangers reminded s.22(1) about the parks control by-law in regards to setting up structures in the park. s.22(1) complied and understood and requested ten minutes to pack up and vacate the park. Rangers complied with the request and stood on scene till the structure was packed and mobile. Rangers spoke with s.22(1) about outreach options and s.22(1) stated s.22(1) was not connected to any at this time but would like support in receiving housing. Ranger 84 collected s.22(1) information to pass along for outreach services. Rangers vacated the park at 1030hrs. Nothing further to report.

March 11 2021 -- 21:11 -- Rangers s.15(1)(f) & s.15(1)(f) attended Kitsilano Beach at 16:34 hrs to conduct a routine patrol of the park and to investigate a noise complaint. March 11th, 2021 - 1333hrs - Rangers DON and s.15(1)(f) attended Tea Swamp Park at 0832hrs for reports of a tent in the park. Upon arrival, Rangers located a green tent in the SW corner of the park. Rangers approached and introduced themselves and a s.22(1) popped his head out. Rangers educated the s.22(1) on the structures bylaw and asked for s.22(1) name. The s.22(1) refused to give s.22(1) name, but said s.22(1) would immediately begin to pack up. Rangers stood by as the s.22(1) said s.22(1) needed 15mins. After 10 minutes and the s.22(1) almost finished packing up, Rangers disengaged from the park.

March 11, 2021 - 1337hrs. - Rangers s.15(1)(f) and s.15(1)(f) attended W.C Shelley Park at approximately 1144hrs. Rangers asked s.22(1) how s.22(1) was doing and s.22(1) replied s.22(1) is fine and that s.22(1) has a lead on a possible place to live that s.22(1) found in the News paper. Rangers then asked how s.22(1) health was and s.22(1) said s.22(1) is fine but the pills s.22(1) takes makes s.22(1) very tired. Rangers mentioned that maybe some sun would help s.22(1) to feel better and if s.22(1) had a plan to pack down s.22(1) tent. s.22(1) said it doesn't take long to pack down the tent and that s.22(1) needed 30 minutes to do so. Rangers then offered s.22(1) some garbage bags and s.22(1) said s.22(1) would like 2 if possible, rangers then gave s.22(1) 2 garbage bags and then departed from the area for a follow up at another time.

Rangers cleared from Beaconsfield Park at approx. 1652hrs.

March 11th, 2021 - 1435hrs - Ranger s.15(1)(f) conducted site inspections within Stanley Park, reviewing some of the more well used areas, including previous camps off s.15(1)(f)

Along s.15(1)(f) in the area fondly known as the s.15(1)(f) (where all the previously big camps had once clustered, requiring over 150 truckloads to remove, including s.15(1)(f)), a pile of garbage including broken pet carriers, was located and picked up.

One site that had been discovered a few weeks earlier was south of s.15(1)(f) approximately 100 metres east of the s.15(1)(f). A well used path over a log had led to this area which, in the past, had not been used for a camp. However the trail was a highway of human garbage (plastics especially). This day, however was a new discovery. Further down the trail a large garbage dump was discovered. Just beyond this was a large tent, opened up, with piles of bedding and garbage strewn around the outside.

It was a sunny warm day, and the tent was open, with bedding suspended in the trees around the clearing. It was unclear as to whether the tent was currently occupied. As the truck was already full of debris for the day, this site will have to wait for another day. (Given its location and previous history, for identification, it has been dubbed s.15(1)(f) s.15(1)(f))

However, the large tarp for the tent, as well as bedding in the trees was hauled out for good measure. This site will require a few more truckloads to remove next week.

3/11/21 | 2048hrs - At approx. 1740hrs, Rangers s.15(1)(f) and s.15(1)(f) (ECHO 5) attended Burrard View Park in Vancouver, in full uniform, to follow-up on a report of a damaged piece of playground equipment. Upon arrival, Rangers located the hazard, taped off the affected area, took photos, and sent in a work request to the City. No other issues of note to report.

No further Ranger action required at this time,
Rangers cleared from Burrard View Park at approx. 1755hrs.

2021-03-11 - 1753hrs - At 1530hrs, when Rangers s.15(1)(f) and s.15(1)(f) were completing their truck inspection, Rangers noticed a s.22(1) walking around the yard. The s.22(1) appeared to be looking at s.22(1) phone as s.22(1) was navigating the yard. As there were a lot of construction workers also wandering around at the same time, Rangers did not think too much of s.22(1) however after watching s.22(1) wander into the stairwell at Smokey, Rangers decided to check and see if Ranger s.15(1)(f) needed assistance as she was doing dispatch upstairs. When Rangers s.15(1)(f) and s.15(1)(f) got upstairs, they found Ranger s.15(1)(f) speaking with the s.22(1) and quickly learned that the s.22(1) was following his Tile App trying to locate a lost s.22(1). Rangers s.15(1)(f) and s.15(1)(f) quickly engaged the s.22(1) and brought s.22(1) outside. The s.22(1) now known as s.22(1) advised Rangers that s.22(1) lost s.22(1) a couple days ago in the trails at Stanley and followed his app to the yard. s.22(1) inquired if Rangers had found a s.22(1) matching the one s.22(1) was carrying at the time of contact. Rangers s.15(1)(f) and s.15(1)(f) advised the s.22(1) that they hadn't seen anything matching s.22(1) mask, however, would keep an eye out for it and contact s.22(1) if it does turn up. Rangers asked s.22(1) if they could take a picture of the mask of which s.22(1) agreed and get s.22(1) contact information of which s.22(1) provided. After speaking with s.22(1) and determining that the s.22(1) was not there, Rangers advised s.22(1) that they would walk s.22(1) out so that s.22(1) doesn't get hurt as the yard was still active. s.22(1) thanked Rangers for their time and departed from the yard sitting on the bench in the Rose garden to rest. No further Ranger action required at this time.

March 11, 2021 - Rangers s.15(1)(f) and s.15(1)(f) attended Kitsilano Beach Park at 1634hrs in response to a complaint of A BUSKER disturbing other people. Rangers patrolled the area from tennis courts to basketball courts and couldn't find any busker.

Rangers located the s.22(1) as s.22(1) was wearing bright orange pants and conducted a wellness check on s.22(1). The s.22(1) was intoxicated, however responsive and advised s.22(1) is alright. Rangers advised the s.22(1) of the time and suggested maybe going to get something to eat if s.22(1) felt hungry as the food could potentially help with s.22(1) intoxication.
