Subject: Update; Granville bridge construction

Good afternoon Mayor and Council,

In follow up to the memo we provided earlier this month, the contractor for the Granville Connector (Pomerleau) has been doing work over the past few nights to remove the centre median and allow the shifting of lanes for the Connector. To reduce impacts, much of this work was done at night.

Unfortunately the noise from this work created substantial impacts on some nearby residents. Staff received many complaints (80+) about the noise impacting people's sleep. To minimize the impact, the City's contractor added additional crews to ensure the work was completed as quickly as possible. We expected the work to take 10 days but the contractor was able to complete the work last night on day 4.

As a result, there will be no further noise impacts from this phase of work.

Best,
Paul

Paul Mochrie (he/him)
City Manager
