

File No.: 04-1000-20-2023-462

September 18, 2023

s.22(1)

Dear s.22(1)

Re: **Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")**

I am responding to your request of July 28, 2023 under the ***Freedom of Information and Protection of Privacy Act*** for:

**Vancouver Fire & Rescue Services Inspection History Reports (electronic) at 414 E 10th Avenue. Date range: January 1, 2008 to July 27, 2023.**

All responsive records are attached. Some information in the records has been severed (blacked out) under s.13(1), s.15(1)(l), s.22(1), and s.22(3)(d) of the Act. You can read or download these sections here:

[http://www.bclaws.ca/EPLibraries/bclaws\\_new/document/ID/freeside/96165\\_00](http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/96165_00).

Under section 52 of the Act, and within 30 business days of receipt of this letter, you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your FOI request by writing to: Office of the Information & Privacy Commissioner, [info@oipc.bc.ca](mailto:info@oipc.bc.ca) or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number (#04-1000-20-2023-462); 2) a copy of this letter; 3) a copy of your original request; and 4) detailed reasons why you are seeking the review.

Yours truly,

*[Signed by Cobi Falconer]*

**Cobi Falconer, MAS, MLIS, CIPP/C**  
**Director, Access to Information & Privacy**  
[cobi.falconer@vancouver.ca](mailto:cobi.falconer@vancouver.ca)  
453 W. 12th Avenue Vancouver BC V5Y 1V4

If you have any questions, please email us at [foi@vancouver.ca](mailto:foi@vancouver.ca) and we will respond to you as soon as possible. Alternatively, you can call the FOI Case Manager at 604-871-6584.

## Property - Inspection History Report

Property Address: **414 E 10TH AVE**  
Building Name: **McQuarie Place Apts**

FH District: **03**  
FPO District: **55**

Constr. Type: **3 - Ordinary - Protected/Unprotected Combustible**

Date of Report: **August 1, 2023**

Business Name: **McQuarie Place**

Last Inspection Date: **January 6, 2023**

Property class: **C Residential Tenant**

Inspection Class <b>After Incident</b>	Inspected Date <b>January 6, 2023</b>	Status <b>Satisfactory</b>	Assigned To <b>FP General</b>	Inspector <b>Thuss, Fraser</b>
---	--	-------------------------------	----------------------------------	-----------------------------------

### Note: Inspection

Inspected building for after alarm

Buildings systems are still not serviced.

Alarm still in trouble mode.

Inspection Class <b>Residential Tenant - C</b>	Inspected Date <b>November 17, 2022</b>	Status <b>Unsatisfactory</b>	Assigned To <b>FP General</b>	Inspector <b>Wolf, Naomi</b>
---	--	---------------------------------	----------------------------------	---------------------------------

Violation Notice: Issued

Received by: as before

Position: [None selected]

### 1 - Emergency Lighting Status Not Inspected

The emergency power unit has past its service date and is now in need of servicing by a qualified service contractor.

xxx

### 2 - Exit Stairshafts Status Not Inspected

Clear excess leaves and garbage from both exit stairwells from the parkade.

Remove unapproved gate from the top of the exit stairwells from the parkade.

### 3 - Fire & Exit Doors Status Not Inspected

Remove hold open device on fire door.

\*\*\*

Repair self closing device on door.

\*\*\*

Remove all locking devices from exit doors

Repair door handles

### 4 - Fire Alarm Systems Status Unsatisfactory

The fire alarm system is in need of servicing by a qualified service contractor.

\*\*\*

### 5 - Fire Extinguishers (Portable) Status Unsatisfactory

The fire extinguishers are in need of servicing by a qualified service contractor.

\*\*\*

### 6 Sprinklers. - Sprinkler Systems Status Unsatisfactory

The sprinkler system is in need of servicing by a qualified service contractor.

#### Note: Prosecution prep inspection

- In preparation for prosecution, had to go back to inspect, as well as to take pictures.
- We had to go back in the afternoon (1317-1338), as resident, Ted Lundy, was not on site to give us access to the parkade. Another resident let us in the first time.
- 
- All EX were either requiring HST, or discharged
- EM in the electrical room was still untouched with tag NSD 21/Jul/18. It is also not mounted properly.
- AL - "ASAP". Panel was still unlocked and was taped shut with duct tape.
- SW fire exit (to outside) in the stairwell now has door knob that latches shut but the door does not lie flush with the frame, and there are still numerous holes.
- 1st floor NW stairwell fire door does not latch shut.
- 1st floor W side hallway has hole in the ceiling.
- 2nd floor has power outlet that's been ripped out and there were exposed wires.
- 2nd floor NW stairwell fire door does not latch shut.
- 3rd floor mid fire doors - one opening towards West does not open. The latching mechanism is jammed. Exit light above those doors is not illuminated.
- 3rd floor NW stairwell fire door wedged open.
- NW fire exit (to outside) in the stairwell does not latch shut unless manually done so. There is also a very large gap at the bottom, there is approx. 1" gap.
- Suite s.22(1) door does not have a door knob (area around it is damaged) and the hole has paper shoved in there.
- 
- Bottom of SW stairwell is a door that leads to the parkade - 3 pieces of plywood piled up. On the other side is excessive storage that prevents the door from being used. There is no access to/from parkade into the building. This door is not a marked exit.
- Both fire exits from the parkade have issues.
- SW exit door does not latch shut, and the wire lasso is still there, and the self closing device is still broken. Other side of the door, the exterior stairwell is covered in leaves and at the top of the stairs is still the red board. There is no hand rail.
- There is a plastic pipe approx. 1" in diameter runs across in front of the fire door, causing a tripping hazard. The pipe goes around one vehicle, then behind another, and eventually going up to the ceiling. It is not known what the purpose of this set up is.
- SE exit door has self closing device, but only opens partially as the other side is blocked by numerous bins and a mattress. The exterior stairwell is covered in leaves and overgrowth of plants obstructing passage. At the top of the stairs is the red board.
- Both exit doors do not have a door knob/lever, just a turn-latch locking device. Both doors are covered in dents/holes.
- There is excessive storage/garbage throughout the parkade.
- Electrical room had some storage, including a wood pallet resing up against electrical meters.
- The room next to the sprinkler room has more storage now, it is piled high with garbage, appliances, and mattress.
- There are no spare sprinkler heads.
- There is no fire extinguisher in the parkade.
-

## Property - Inspection History Report

Property Address: **414 E 10TH AVE**  
Building Name: **McQuarie Place Apts**

FH District: **03**  
FPO District: **55**

Inspection Class	Inspected Date	Status	Assigned To	Inspector
<b>Residential Tenant - C</b>	<b>August 17, 2022</b>	<b>Unsatisfactory</b>	<b>FP General</b>	<b>Wolf, Naomi</b>

**Violation Notice:** Issued

**Received by:** as before

**Position:** [None selected]

<b>1 - Emergency Lighting</b>	<b>Status</b> Unsatisfactory
-------------------------------	------------------------------

The emergency power unit has past its service date and is now in need of servicing by a qualified service contractor.

xxx x

<b>2 - Exit Stairshafts</b>	<b>Status</b> Unsatisfactory
-----------------------------	------------------------------

Clear excess leaves and garbage from both exit stairwells from the parkade.  
Remove unapproved gate from the top of the exit stairwells from the parkade.

<b>3 - Fire &amp; Exit Doors</b>	<b>Status</b> Unsatisfactory
----------------------------------	------------------------------

Remove hold open device on fire door.

\*\*\*

Repair self closing device on door.

\*\*\*

Remove all locking devices from exit doors

Repair door handles

<b>Note: Prosecution preparation</b>
--------------------------------------

- met with Ted Lundy to take photos of deficiencies
- 
- Both exit doors from the parkade are still rigged with a wire lasso device.
- SE exit door is in poorer shape, and the locking device is sticky and difficult to open the door.
- In front of the exit door on the SE side, there is a plastic plumbing pipe running the width of the door, creating a tripping hazard. The pipe is a makeshift drain from a leak in the parkade ceiling that the owner has rigged.
- Both exit stairwells from the parkade are littered with leaves and twigs on the stairs and at the top of the stairs, they are both blocked by large, red barrier. While they are flimsy and can easily be pushed away, it still presents an obstacle as it is large and bulky and you would have to step over them.
- SW stairwell behind the exit door in the refuge area, there is substantial garbage that is blocking the door from opening no more than approximately 12".
- The emergency lighting unit in the electrical room is past due for service; NSD 21/Jul/18.
- Overall, the parkade area is very dark with very poor lighting.
- 
- Both fire exits from the stairwell between 1st and 2nd floors are beyond repair. The doors sit ajar and will not latch shut. While locked, it takes very little effort for the door to open. There are numerous holes in both doors.
- The window on the 3rd floor on the SW side is broken; the glass is broken and the window will not shut (from previous prosecution).
- The fire alarm panel is duct taped shut. There is no key for it and can easily be tampered with.
- 
- Notes, including photos, have been completed and will be ready for submission shortly.

## Property - Inspection History Report

Property Address: **414 E 10TH AVE**  
Building Name: **McQuarie Place Apts**

FH District: **03**  
FPO District: **55**

Inspection Class	Inspected Date	Status	Assigned To	Inspector
<b>Residential Tenant - C</b>	<b>June 17, 2022</b>	<b>Unsatisfactory</b>	<b>FP General</b>	<b>Wolf, Naomi</b>

**Violation Notice:** Issued      **Received by:** straight to prosecution      **Position:** [None selected]

<b>1 - Emergency Lighting</b>	<b>Status</b> Unsatisfactory
-------------------------------	------------------------------

The emergency power unit has past its service date and is now in need of servicing by a qualified service contractor.

xxx x

<b>2 - Exit Stairshafts</b>	<b>Status</b> Unsatisfactory
-----------------------------	------------------------------

Clear excess leaves and garbage from both exit stairwells from the parkade.  
Remove unapproved gate from the top of the exit stairwells from the parkade.

<b>3 - Fire &amp; Exit Doors</b>	<b>Status</b> Unsatisfactory
----------------------------------	------------------------------

Remove hold open device on fire door.  
\*\*\*  
Repair self closing device on door.  
\*\*\*  
Remove all locking devices from exit doors  
  
Repair door handles

**Note: Recheck**

- one of the residents, Ed Lundy, called to say one of the exit stairwells from the parkade to the street is blocked by garbage on the other side.
- 
- Confirmed that the West exit from parkade is blocked by items on the other side. When seen from the other side, the door is blocked by boxes, garbage cans, and other garbage. It also has a significant amount of leaves on the stairs and the ivy is starting to overgrow along the side of the stairs.
- East side exit from parkade opens, but there is garbage strewn along the stairwell. It is also covered in leaves.
- According to Ed, the landlord was there earlier in the day and he removed the red panels that were blocking the top of both exits from the parkade. It was noticed that those panels were placed on the other side of the alley by the building on E. 11th.
- The door to the sprinkler room was bolted shut. Ed used a power drill to unscrew the bolt. Inside that door, there is a significant amount of storage. Another door through that area is where the sprinkler room is.
- Electrical room was also bolted shut in the same manner. Ed also mentioned that when it rains, the water leaks onto the electrical panels.
- AL panel is no longer open with a key hanging from it, but is taped shut. The panel is not locked.
- 3rd floor East stairwell's fire door has a large split in the wood from the latch downwards. The door does close, but the integrity has been compromised from the split.
- 2nd floor mid-floor fire doors are not latching.
- Photos will be uploaded for prosecution.

## Property - Inspection History Report

Property Address: **414 E 10TH AVE**  
Building Name: **McQuarie Place Apts**

FH District: **03**  
FPO District: **55**

**Violation Notice:** Issued

**Received by:** Ed Lundy as before

**Position:** Occupant

### 1 - Emergency Lighting

**Status** Unsatisfactory

The emergency power unit has past its service date and is now in need of servicing by a qualified service contractor.

\*\*\*

### 2 - Exit Stairshafts

**Status** Unsatisfactory

Clear excess leaves and garbage from both exit stairwells from the parkade.  
Remove unapproved gate from the top of the exit stairwells from the parkade.

### 3 - Fire & Exit Doors

**Status** Unsatisfactory

Remove hold open device on fire door.  
\*\*\*  
Repair self closing device on door.  
\*\*\*  
Remove all locking devices from exit doors  
  
Repair door handles

#### Note: NOV/Prosecution recheck - Unsatisfactory

- met with one of the residents, Ed Lundy.
- 
- This inspection would be the post 3 months since court date where owner was found guilty on 4 counts:
  - Failing to maintain windows in good repair
  - Failing to provide means of egress
  - Failing to maintain means of egress
  - Remove all unauthorized locking devices from the stairwell exit door, SW parkade exit door, and the SE parkade exit door. Ensure the doors are equipped with latching, locking, and opening mechanisms.
- 
- The window on the east side stairwell has been replaced, but the window on the west side stairwell does not close.
- Both exit doors from the parkade no longer has the sliding lock that Ed placed (after the court date), but the handles are broken and the doors are latched shut by a wire lasso. Both doors are beyond repair from all the holes that have been drilled into them.
- Both exits lead up to the alley by a stairwell, both are covered in leaves and at the top there are red, wooden boards in place of a gate. Ed said the owner removed the gates and replaced them with these boards. The east side does not have a fence or handrail to prevent anyone from falling down the stairwell. The west side has a fence, but you are essentially trapped at the top of the stairwell.
- West side stairwell exit door was recently bolted shut but the bolts have since been removed. There are numerous holes in both west and east side exits that makes them not function properly as a fire door.
- There is a room between the parkade and the sprinklers, which is filled from floor to ceiling with random items from people moving out. The sprinkler room itself is free of items, but the room next to it is bordering on hoarding.
- Fire alarm panel is not locked but is shut by a duct tape.

<b>3 - Housekeeping</b>	<b>Status Satisfactory</b>
-------------------------	----------------------------

Remove storage from service rooms and ensure they are kept free of storage at all times

<b>Note: NOV recheck - Unsatisfactory</b>
---

- Went and met with Ed Lundy to have a walk-through.
  - 
  - He has removed the sliding locks from the exit doors in the parkade, but the wire cables are still present. The South side exit's self closing device is disconnected/broken.
  - Electrical room's storage has been removed.
  - EM - still not done with NSD 21/Ju/18
  - AL panel is unlocked and duct-taped shut (easy to open it).
  - There is a hole in the ceiling drywall on the 1st floor, approximate size 10"x12" (there was a leak).
  - 1st floor SW exit's door doesn't even close, the door is completely broken, both the hardware as well as the structure itself.
  - Fire doors mid-floor on both 2nd and 3rd floors do not latch shut (one door on each floor).
  - Knobs on the same fire doors are wobbly - works but isn't secure in the door.
  - Fire door mid-floor on the 1st floor is off the frame and will not shut.
  - 
  - Overall, majority of the fire/exit doors are beyond repair and need to be replaced.
- Spoke with the City Prosecutor, David Clements and a new prosecution will be started for the fire doors.

FH District: **03**  
FPO District: **55**

### 1 - Emergency Lighting Status Unsatisfactory

The emergency power unit has past its service date and is now in need of servicing by a qualified service contractor.

xxx

### 2 - Fire & Exit Doors Status Unsatisfactory

Remove hold open device on fire door.

\*\*\*

Repair self closing device on door.

\*\*\*

Remove all locking devices from exit doors

Repair door handles

### 3 - Housekeeping Status Unsatisfactory

Remove storage from service rooms and ensure they are kept free of storage at all times

#### Note: NOV issued

- Inspection due to prosecution outcome
- 
- Exit doors in parkade were bolted shut, and they were to "ensure the exit doors are equipped with latching, locking, and opening mechanisms that comply with Section 9.9.6.7(1)(a) of the BC Building Code 2018, such that the mechanisms permit the exit doors to be openable from the inside or in the direction of travel to an exit without requiring keys, special devices, or specialized knowledge of the door opening mechanism".
- 
- Southwest and Southeast parkade exit doors were no longer screwed shut, however, a large sliding dead bolt has now been put on. The wire cables are still present, enabling the door to be tethered shut from the inside.
- Southwest exit has a doorknob, not the lever-style in addition to the deadbolt and the wire cable.
- Electrical room has significant storage.
- EM - NSD 21/Jul/08
- WA, AL, EX - NSD 22/Aug/06
- 2nd floor fire door mid-way has a broken door knob; will not open
- Exit from 2nd floor on east stairwell to outside has a broken doorknob. It opens, but it is just a piece of metal with duct tape; one doesn't even need to turn it, the door opens once you push on it.
- 3rd floor west stairwell fire door was wedged open.
- 3rd floor fire door mid-way does not latch shut.

Inspection Class <b>FPO General ( No Entry )</b>	Inspected Date <b>September 9, 2021</b>	Status <b>Unsatisfactory</b>	Assigned To <b>FP General</b>	Inspector <b>Wolf, Naomi</b>

Ed Lundy tenant s.22(1)

Fu De Ren - AKA Henry Yen claimed he never received warning or fire notices in the past.  
Ed and Hazel Lundy have accepted NOV's and MTI's on behalf of Fu De Ren - AKA Henry Yen, when not at 414 E 10<sup>th</sup> ave.

I created a package for both Fu De Ren - AKA Henry Yen  
Ed & Hazel Lundy (tenants s.22(1)) that include the letter below and attachments in this email.

Please retain for records.

Lorenzo

414 East 10<sup>th</sup> Ave  
Mc Quarie Place.  
Vancouver BC  
V5t 1Z8

Dear sir,  
As per yesterdays inspection, you had expressed concerns of not receiving warnings, correspondence or Notice of Fire Violations.

Included in this package are past NOV's (Notice of Fire Violations) from Feb 7, 2020 to March 16, 2021.

Also included are copies of Fire watch and Fire Chiefs order, that have been ignored or removed from your building when the fire inspector had exercised his duty to enforce the VFBL and BC Fire Code.

On March 17, 2021, I issued 5 x MTI's for previous fire violations that have been in noncompliance since February 2020.

Address: 414 E 10TH AV, Vancouver, V5T 1Z3

15:31

February 3, 2021

Phone conversation- On going Prosecution

Ed Lundy - Care taker

Unauthorized Locks removed - reported by Ed Lundy

He called to report he has been issued 4 MTI's in the mail.

I explained the MTI's had been assigned to him , however the owner is responsible to pay them - Ed reported he ad done so

Locks

Spoke with Ed to relay message to Henry (owner) if unauthorized locks are discovered on any of the doors, additional MTI's will be issued.

**Note: HAZEL LUNDY**

Hazel

Called January 7, 2021

She reported the following:

Ed did not give Henry the Fire Chiefs order or MTI's  
Hazel did.  
MTI had been handed to Henry (owner) along with the Fire Chiefs order.

The Fire Chiefs order had been removed , HOWEVER the removal was not witnessed, Hazel called at to report the order removed.

Encouraged Hazel to call 311 to report a flooding in first floor landing, that occurred Jan 6 2021

Edward Lundy is a tenant /occupant of 414 E 10th ave, his mother is a caretaker/janitor, they are both representatives of the building when owner is not available or on site.

I have informed Edward Lundy on several occasions the owner is responsible for the MTI's, not staff/occupants/tenants /or affiliates of 414 E 10th Ave.

#### Past Inspection -

MTI's issued in person to Edward Lundy and owner Fu De Ren AKA Henry

Henry may be confused with Notice of violation placed on Suite door of s.22(1) picture taken on

2.	If Other selected, provide details:
	Citizen is calling regarding a notice of violation that they recieved for the above address. A) They said that the ticket states that they have been informed of the issue before, but they have just seen this ticket right now. Citizen said that previously the ticket was just posted on the door, but that does not guarantee that they get the ticket as the tenant can remove the ticket. B) The ticket was issued in the tenant (and not the landlords) name. They are wondering if the landlord is responsible for a ticket issued in a tenants name C) Citizen would like to dispute the tickets that were issued but there is not enough time to mail it in. Ciitizen is wondering if they can have an extention to submit their dispute.

5.	Describe inquiry in detail:
	look above.
6.	(Don't ask, just record - did caller indicate they want a call back?):
	Yes

### Property - Inspection History Report

Property Address: **414 E 10TH AVE**  
Building Name: **McQuarie Place Apts**

FH District: **03**  
FPO District: **55**

Met with Henry (Fu De Ren) Hazel and Edward (caretakers) of 414 E. 10th Ave.

I asked Henry (Fu De Ren) for identification he claimed he did not have any, I explained to Henry the notice of violation(s) the municipal tickets, fire watch and Chiefs order that he was receiving on July 9, 2020.

I attempted to explain the 18 different MTI's to the group, why they were being issued and in relation to building & the fire by law, Henry (Fu De Ren) became irate and decreed the fire alarm was not broken and it was functional, I corrected him and mentioned that the tech notes and tag required additional service and the sprinkler system had been expired since 2018.

Henry (Fu De Ren) denied that the fire alarm required servicing, then pulled a fire alarm station in front of myself Hazel and Edward, signaling the fire alarm throughout the building.

Henry (Fu De Ren) silenced the alarm himself on the panel as I recorded his actions through pictures and video.

I mentioned to him his actions in pulling the fire alarm are illegal, he continued to be irate and stated and repeating the fire alarm was not broken.

After Henry (Fu De Ren) silenced the alarm, I called dispatch and informed them of the false alarm pulled by the owner.

I made several attempts to explain the multiple MTI's and the issues with the building. I offered to do a floor by floor inspection with Henry (Fu De Ren) and Edward, unfortunately Henry (Fu De Ren) argued with every point that I had, stating that it was incorrect and it one point got in front of a fire door not performing and not latching. Henry (Fu De Ren) continued to argue his point, I then terminated the meeting & the inspection, leaving Edward Lundy in care of the MTI's.

19 x MTI - the 19<sup>th</sup> MTI to Henry (Fu De Ren) for pulling the fire alarm \$500 ( he refused to provide ID)

19 MTI's = \$11,750

#### Note: FIRE WATCH

Placed in POSSE.

Fire Watch / Chiefs Order for sprinkler system and fire alarm system.

### Request Details

1.	Inspection date:
	07/08/2020
2.	Concern details:

Citizen is the manager of the building. A fire inspector came to the building today and spoke to one of the tenants. The fire inspector did not provide any paper or letter indicating what needs to be addressed but said the building manager needs to fix three things. The inspector told the tenant that these 3 issues need to be addressed by tomorrow or the building will be fined \$1000 per day. Citizen is upset that the inspector did not speak with him s.22(1) : s.22(1) and that she never provided any information/instructions. The building manager would like to hear back from the department s.22(1) and would prefer email correspondence if possible or if someone is calling him back they will need s.22(1) The inspector is from fire hall 4.

FPO District: **55**

a) in any part of an elevator shaft, ventilation shaft, *means of egress*, service room or service space,

#### Appendix:

##### A-2.4.1.1.(2) Combustible Storage in Garbage Rooms.

The defined term for service rooms includes boiler rooms, furnace rooms, incinerator rooms, garbage rooms, janitors' closets and rooms to accommodate air-conditioning or heating appliances, pumps, compressors and electrical services. The intent of Sentence 2.4.1.1.(2) then is to discourage the use of these rooms for storage of miscellaneous combustible materials. If storage space is needed in a building, a room that does not contain building service equipment should be provided. Even in garbage rooms, combustible materials should not be allowed to accumulate. When the garbage is periodically cleared from the room, the room should be empty, except for the garbage container itself.

#### Note: Invoicing Info - Non payments

April 6, 2018,

In spite of much work by Revenue Services, trying to collect for 9 re-inspection fees (between 2013 to 2017, totalling \$1,800.00), no luck. Invoices will now be sent to a Collection Agency.

In addition, MTI - TA24562, was disputed, went to Court Dec 6, 2017, & Fu Ren was found Guilty.

The Court gave them until April 30, 2018 to pay, it remains unpaid as of this date. (Diared to myself for May 1st to check status.)

This information referred to AC Bryant.

The defined term for service rooms includes boiler rooms, furnace rooms, incinerator rooms, garbage rooms, janitors' closets and rooms to accommodate air-conditioning or heating appliances, pumps, compressors and electrical services. The intent of Sentence 2.4.1.1.(2) then is to discourage the use of these rooms for storage of miscellaneous combustible materials. If storage space is needed in a building, a room that does not contain building service equipment should be provided. Even in garbage rooms, combustible materials should not be allowed to accumulate. When the garbage is periodically cleared from the room, the room should be empty, except for the garbage container itself.

<b>Note: NOTE</b>

conforming to the Building By-law.

<b>6 Combustible Materials. - 5020 Excessive amount of stored combustibles in and around building</b>	<b>Status</b> Unsatisfactory
---	------------------------------

Article 2.4.1.1.

Accumulation of Combustible Materials [see also 3.2.3.3.]

Sentence:

- v 1) Except as provided in sentence 2.4.1.5., *combustible materials* in and around *buildings* shall not be permitted to accumulate in such quantities or locations that will constitute a fire hazard. [See Appendix A]

Appendix:

A-2.4.1.1. (1) Combustible Waste Materials.

The accumulation of a certain amount of combustible waste material in and around buildings may be necessary for the day-to-day operation of many industrial or commercial premises. If basic measures of good housekeeping are observed, the presence of these combustibles may not constitute a fire hazard. Combustible waste material should be stored away from exits, and should only be there for the duration between garbage pick-ups. For the occupants' own safety, the materials should be stored in a manner that discourages vandals.

<b>7 Indoor Storage. - 6020 Maintain aisle width</b>	<b>Status</b> Satisfactory
--	----------------------------

Article 3.2.2.2.

Access Aisles [See Appendix A]

Sentence:

- 2) Access aisles not less than 1.0 m wide shall be provided fire department access panels and to fire protection equipment.

Appendix:

A-3.2.2.2. Access aisles

The purpose of this Article is to provide adequate access to the interior of the storage area for firefighting and overhaul operations. Means of egress must also be provided in accordance with Section 2.7. of this By-law. The use of dead-end aisles in storage areas should be minimized because of the potential hazard they create with respect to egress. Access aisles requires in Sentence (2) include aisles to fire department access panels, or to fire protection equipment such as sprinkler control valves, fire hose stations, portable extinguishers and fire alarm pull stations.

Sentence (4) to (8) prescribe requirements for main access in the storage area. More than one main access aisle may be required depending on the storage configuration and alternate arrangements to a single main access aisle are permitted in Sentence (7). These requirements are in addition to the general requirement for 2.4 m aisles separating individual storage areas. The width of subsidiary aisles within individual storage areas is determined by material handling needs.

Fire department access to a storage area can be by means of doors or access panels on exterior walls, or through doors from another fire compartment in the building, provided that fire compartment in turn has adequate fire department access. The access points should be as remote from each other as possible. Where feasible, the preferred arrangement is for main aisles to terminate at exterior doors on opposite sides of the building.

<b>8 Underground Parking. - 6610 Remove all stored materials in parking garage</b>	<b>Status</b> Satisfactory
--	----------------------------

Sentence:

- v 1) Combustible materials shall not be kept or stored in a vehicle storage garage in a building unless the vehicle storage garage is sprinklered in an acceptable manner and the materials are kept in acceptable cabinets, lockers, or other containment arrangement.

For the occupants' own safety, the materials should be stored in a manner that discourages vandals.

<b>7 Indoor Storage. - 6020 Maintain aisle width</b>	<b>Status</b> Unsatisfactory
--	------------------------------

Article 3.2.2.2.  
Access Aisles [See Appendix A]

# Vancouver Fire and Rescue Services

## Property - Inspection History Report

Property Address: 414 E 10TH AVE  
Building Name: McQuarie Place Apts

FH District: 03  
FPO District: 55

Sentence:

2) Access aisles not less than 1.0 m wide shall be provided fire department access panels and to fire protection equipment.

Appendix:

A-3.2.2.2. Access aisles

The purpose of this Article is to provide adequate access to the interior of the storage area for firefighting and overhaul operations. Means of egress must also be provided in accordance with Section 2.7. of this By-law. The use of dead-end aisles in storage areas should be minimized because of the potential hazard they create with respect to egress. Access aisles required in Sentence (2) include aisles to fire department access panels, or to fire protection equipment such as sprinkler control valves, fire hose stations, portable extinguishers and fire alarm pull stations.

Sentence (4) to (8) prescribe requirements for main access in the storage area. More than one main access aisle may be required depending on the storage configuration and alternate arrangements to a single main access aisle are permitted in Sentence (7). These requirements are in addition to the general requirement for 2.4 m aisles separating individual storage areas. The width of subsidiary aisles within individual storage areas is determined by material handling needs.

Fire department access to a storage area can be by means of doors or access panels on exterior walls, or through doors from another fire compartment in the building, provided that fire compartment in turn has adequate fire department access. The access points should be as remote from each other as possible. Where feasible, the preferred arrangement is for main aisles to terminate at exterior doors on opposite sides of the building.

### 8 Underground Parking. - 6610 Remove all stored materials in parking garage

Status Unsatisfactory

Sentence:

v 1) Combustible materials shall not be kept or stored in a vehicle storage garage in a building unless the vehicle storage garage is sprinklered in an acceptable manner and the materials are kept in acceptable cabinets, lockers, or other containment arrangement.

#### Note: NOTE

- Gained entry from tenant
- 
- Called Henri the building manager but his phone would not take any messages
- 
- Excess combustibles in and around the building - wood on the east side of the building, some balconies packed with items, laneway has excess garbage
- 
- Storage room downstairs in parkade does not have clear isles and is a mess
- 
- Truck in underground needs items cleared from it, full of combustibles
- 
- Fire doors must close and latch, 2nd floor East side of building has duct tape in latching mechanism
- 
- Fire door 3rd floor mid hallway, one of the door knobs is broken and is unable to open door
- 
- Remove items from outside room <sup>s.22(1)</sup> in hallway
- 
- Fire door wedged open 3rd floor West side
- 
- Stairwell on West side of building must have proper illumination
- 
- Items must be removed from 3rd floor stairwell

Extinguisher 3rd floor hallway tagged additional work required

<b>Note: NOV / Note</b>
-------------------------

NOV issued for insufficient lighting in west stairwell

No Fire Safety Plan on site, no log book of fire alarm maintenance

Mattress must be removed from underground parking

Henri Li the manager was angry that another NOV was being issued.

Said the lighting in the stairwells is on a timer to be off during the daytime.

Wanted me to talk to tenant that had the mattress in the garage to tell them remove it but I did not, Henri has been given enough warning to remove the items from the parking garage.

Said that the FD does not know how to work the alarm system in the building

Also said that the reason he did not have a copy of the fire safety plan was that he submitted it to the office on Broadway and we never gave it back 2 years ago.

------------------------------------	--	-------------------------------	--	------------------------------------

**Note: Responding to complaint from #3 Hall.**

Initial report from hall #3 A Captain Martin.

To all concerned.

E10 responded to a water problem call at 414 east 10th av, due to a burst pipe in suite **s 22(1)**. We shut down 2 valves in the sprinkler room which stopped the flow. An order was left with the tenants in suite **s 22(1)**. Apparently the building owner is very hard to contact, and very reluctant to make repairs. Note that the sprinkler system will not be working at this address, and length of time unknown. I am hoping that someone in Fire Prevention can use their ability and authority to contact the building owner and ensure that this problem is dealt with promptly.

Regards,

Capt. Martin D, 3-A

I attended the address with the intent of issuing an order directly to the building owners, to restore the Fire Sprinkler System. I found the building owners at the address trying to get the domestic water supply turned on to the entire building. The Fire Sprinkler System has just been repared days earlier by a service company. They Clapper Valve Gasket had been replaced June 17th 2014. The ASTTBC tag is good until 2015/03/14.

I helped the building owners to find the proper domestic water valve to turn on the water to the building. It was in the boiler and sprinkler room. The owner of the building turned the valve on himself to restore the water to the building.

The phone number for the Sprinkler System Service Company that fixed the Clapper Valve Gasket is 778-875-4273

#### Note: Prosecution follow up

A request from the Prosecutors office to follow up.

The building is in moderate to poor repair. Basic fire systems have been serviced. Fire extinguishers and emergency lighting due March 23, 2011. No access to the fire alarm panel to verify service. Fire doors on the 1st floor east side wedged open. Fire door on 3rd floor west side wedged open. Fire door on 3rd floor centre wedged open. Fire doors on east side 2nd floor requires maintenance. Egress from the basement level blocked by illegal locking devices on exit door, access and exit from elevator only.

Forwarded update to prosecutors office via email.

## Vancouver Fire and Rescue Services

### Property - Inspection History Report

Property Address: 414 E 10TH AVE  
Building Name: McQuarie Place Apts

FH District: 03  
FPO District: 55

Sentence:

- 1) Where fire separations are damaged so as to affect their integrity, they shall be repaired so that the integrity of the fire separation is maintained.

Laundry Room behind washing machines

#### 9 Fire Alarms. - 2210 Inspect Test and Tag fire alarm system

Status Unsatisfactory

Article 6.3.1.2.  
Article 6.3.1.2.  
Inspection and Testing

Sentence:

- 1) Fire alarm systems shall be inspected and tested in conformance with CANULC-S536-M, [Inspection and Testing of Fire Alarm Systems.]
- 2) Fire alarm and detection system components shall be accessible for purposes of inspection or maintenance.

#### 10 Smoke Alarms. - 2450 Smoke Alarm needs repair

Status Unsatisfactory

Article 2.1.3.3.  
Smoke Alarms

Sentence:

- 8) Smoke alarms shall be kept installed and shall be maintained in working condition by the owner or occupant.

#### 11 Fire Extinguishers. - 2610 Provide extinguishers

Status Unsatisfactory

Article 6.2.1.1.  
Selection and Installation

Sentence:

- 1) Portable extinguishers shall be selected and installed in conformance with NFPA 10, [Portable Fire Extinguishers] and with the requirements of this By-law.

#### 12 Fire Alarms. - 2662 Fire Alarm Maintenance

Status Unsatisfactory

Article 6.3.1.1.  
Maintenance

Sentence:

- 1) Fire alarm and voice communications systems shall be maintained in operable condition at all times.

Heat Detectors by Units s.22(1)

#### 13 Exit Lighting / Emergency Lighting. - 2820 Exit lights/signs must be illuminated

Status Unsatisfactory

Article 2.7.3.1.  
Installation and Maintenance

Sentence:

- 2) Exit lighting and exit signs shall be illuminated during times the building is occupied.

West Stairwell between 1st and 2nd floor, East Stairwell 1st floor, Laundry Room, East Stairwell 2nd Floor, East Stairwell 3rd Floor, Basement East of elevator, Basement West of Elevator, Basement outside of

Sentence:

- 3) Emergency lighting shall be maintained in operating condition, in conformance with Section 6.7.

<b>8 Underground Parking. - 6610 Remove all stored materials in parking garage</b>	<b>Status</b> Unsatisfactory
--	------------------------------

Sentence:

- v 1) Combustible materials shall not be kept or stored in a vehicle storage garage in a building unless the vehicle storage garage is sprinklered in an acceptable manner and the materials are kept in acceptable cabinets, lockers, or other containment arrangement.

IMG 0536

location: parkade, SE corner

Notes: the door is rigged with some wire to keep it in place. The locking mechanism was stuck and was difficult to open. The door itself is full of holes and is not repairable.

IMG 0537

location: parkade, SE corner exit door

Notes: the wire contraption to keep the door closed. This would be impossible to navigate in an emergency. The parkade is VERY dark with insufficient lighting throughout.

IMG 0538

location: parkade, SE corner exit door

Notes: some of the holes in the door.

IMG 0539

location: parkade, SE corner exit (once door has been opened)

Notes: debris cluttered all along the stairwell.

IMG 0540

location: SE fire exit from parkade

heavy board is blocking the exit at top of the stairs. Leaves and twigs litter the entire stairwell.

IMG 0541

location: top of the stairs from parkade on SE side

Notes: at the top there is approx. 1' rise to step over to get around the board.

IMG 0542

location: top of stairs from parkade on SE side

Notes: illustrate how the board is held up.

IMG 0543

location: top of stairs from parkade on SE side

Notes: from street level looking at the stairwell.

IMG 0544

location: parkade, SE corner exit

Notes: plastic pipe runs across the exit. The pipe is a makeshift drain that encompasses the length of the parkade on the south side.

IMG 0545

location: parkade, SE corner

Notes: continuation of the pipe

IMG 0546

location: parkade, SW corner

Notes: another wire contraption to keep door closed. This door also has numerous holes in the door.

IMG 0547

location: parkade, SW corner

Notes: garbage on the other side of the door in the stairwell – door cannot be opened further due to the obstruction.

IMG 0548

location: parkade, SW corner

Notes: another view of the garbage behind the exit door.

IMG 0549

location: parkade, SW corner

Notes: leaves and twigs litter the entire stairwell.

IMG 0550

location: stairwell from parkade, SW corner

Notes: garbage that prevents the door from being opened from the parkade.

IMG 0551

location: electrical room

Notes: emergency light system that has tag NSD 21/07/18

IMG 0552

location: electrical room

Notes: location of the emergency light system – close to the floor level

IMG 0553

location: electrical room

Notes: tag on emergency light system

IMG 0554

location: lobby

Notes: fire alarm panel is not locked but is duct taped shut. No key.

IMG 0555

location: lobby

Notes: another angle

IMG 0556

location: SW exit to the street level

Notes: this is how the door is, it does not completely latch, and the door is in very poor condition.

IMG 0557

location: SW exit to the street level

Notes: condition of the door, door knob, door frame

IMG 0558

location: SW exit to the street level

Notes: once outside, there is debris/garbage obstructing egress.

IMG 0559

location: SW exit to the street level

Notes: another close up of condition of the door, door knob, door frame

IMG 0560

location: SW stairwell, between 2<sup>nd</sup> and 3<sup>rd</sup> floors

Notes: window is broken and will not close. This is part of the previous prosecution that they did not comply with.

IMG 0561

location: SE exit to the street level

Notes: door does not fully close, also filled with holes.

IMG 0562

location: SE exit to the street level

Notes: another picture of condition of the door and door frame

IMG 0563

location: SW exit from the parkade

Notes: board leaning up against the top of the stairwell

IMG 0564

location: SW exit from the parkade

Notes: another view of the garbage at the bottom of the stairwell, preventing door from opening from parkade.

IMG 0562

location: SW exit from the parkade

Notes: close up of the garbage at the bottom of the stairwell, preventing door from opening from
