Subject: Update - Rosenbauer electric fire truck

Mayor and Council,

I am writing to let you know that Rosenbauer RTX Electric truck is currently out of service and awaiting repairs which will be completed shortly.

As brand new apparatus enter VFRS fleet, is it routine and expected that mechanical issues come up and we quickly work with manufacturers to resolve them and improve their response capability. The repair work to the vehicle is covered by Rosenbauer, with no cost to VFRS.

The repair work involves the vehicle's water tank and none of its electrical or battery systems. We look forward to having the truck back in service as soon as possible. Given the profile of this particular piece of equipment, we understand there may be interest on the part of media in this matter.

If you have any questions, please do not hesitate to reach out to Chief Fry.

Best,
Paul
