Subject: Tent fire Oak St/Marine Drive

Council

Though I don't normally advise of all tent fires in the City, I understand that this area has had a lot of discussion lately.

This morning our fire crews responded to a tent fire in the encampment at Oak St and Marine Drive. The fire destroyed one tent/area and also heavily involved a large tree. One female occupant was transported by BCEHS to VGH with smoke inhalation.

I have been advised that the Province issued their Trespass Notice on Monday as planned.

If you have any questions, please do not hesitate to contact me (re fires) or Sandra.
