E-Comm Update

July 2025

We're pleased to share our monthly update highlighting key activities at E-Comm as we enhance our services for first responder partners and the public.

This month's highlights include strong service level results, a five-year high for non-emergency service performance in the Lower Mainland, enhanced technology, and E-Comm's 2024 Annual Report.

UPDATE](#)

Service Levels Update

Strong Service Performance for Police Emergency Call-Taking, 9-1-1

In the Lower Mainland, year-to-date service levels for police emergency call-taking held at 92% (target: 88% of calls answered in 10 seconds), and at 91% on Vancouver Island. 98% of 9-1-1 calls were answered in five seconds or less (target: 95%).

Non-Emergency Service Performance Reaches 5-Year High in Lower Mainland

Non-emergency service performance in the Lower Mainland achieved a 5-year high year-to-date, reaching 85% (target: 80% of calls answered within three minutes). Vancouver Island also saw strong service levels for non-emergency call-taking at 84%. The rate of abandoned non-emergency calls continued to decrease and average call handling times were faster at one minute (compared to two minutes in 2024).

Increase in Non-Emergency Call Volume

Both the Lower Mainland and Vancouver Island saw increases in non-emergency call volume year-to-date as compared to the same period in 2024. The Lower Mainland saw a 7% increase, while the growth on the Island was smaller (0.8%).

A Note on Service Levels

The summer months are typically the busiest for call volumes due to a number of factors, including major public events and seasonal emergencies such as wildfires. E-Comm plans in advance for this time of year and adjusts staffing levels to assist with peak volumes in order to mitigate service level impacts as much as possible.

Operations Transformation

New Call Takers, Dispatchers

Four emergency call takers completed their dispatch training course at our Lower Mainland communications centre, which also welcomed four new non-emergency call takers (originally trained as 9-1-1 operators). Our Vancouver Island communications centre also welcomed seven new police call takers in June.

Enhanced Technology for Non-Emergency Launched in New Westminster

On June 19, an interactive voice response (IVR) was launched as part of the New Westminster Police Department's non-emergency service, which returned to E-Comm on a full-time basis in April. The new system offers callers options to find appropriate support and can also provide information via text.

E-Comm Governance

E-Comm Announces New Board Chair, 2025-2026 Board of Directors

At E-Comm's Annual General Meeting on June 25, we welcomed Nancy Kotani as the new Board Chair, and Vancouver Police Inspector Jason High as a new Board Director. Outgoing Board Chair

Doug Campbell was recognized for his leadership and contributions over the past nine years and will continue to serve as an independent director.

Communications & Public Affairs Update

Updating Our Progress in the 2024 Annual Report

E-Comm's Annual Report for 2024 has been shared with our Board and partners and is [available to view on our website](#). The report features progress highlights including key transformation improvements that led to our highest service performance results in eight years.
