Public Realm during FIFA: Structures and congestion

WE ARE VANCOUVER™

- **Overnight sheltering in parks.** People experiencing homelessness will continue to be permitted to erect temporary shelters in parks overnight, with some restrictions, as per the Park Control Bylaw
- **Daytime structures.** Daily by-law compliance work to address structures in the public realm will continue to ensure parks and sidewalks remain accessible and usable by all members of the community.
- **Volume.** We are not anticipating any changes to our current daily approach bylaw compliance; there will likely be more sanitation staff out because of the volume of people will likely result in increased litter, etc.

Gender-based violence

Continued staff coordination and oversight of inter-departmental response to critical issues in the Downtown Eastside, including gender safety.

- **Sex Worker Supports.** Continued engagement of social planners in identifying issues related to sex work.
- **Escalation Processes.** Develop processes for identifying and escalating concerns regarding gender-based violence at event venues.

Responsible sourcing and procurement

WE ARE VANCOUVER™

Pursue opportunities to direct event-related procurement needs to local and diverse employers.

- **Operationalize existing policy.** Continue to conduct procurements in accordance with the City's Ethical Purchasing Policy and Supplier Code of Conduct.
- **Specific initiatives.** Contracts for traffic management, waste management and wayfinding / signage.

- **FIFA reporting portal.** Align with FIFA's reporting portal to provide access to supports, resources and grievances via a referral system.
- **Awareness-raising.** Increase awareness of reporting channels at FWC26 venues.

FWC26 Host City Human Rights Action Plan V2 Feedback -
Government of BC.docx

Hi Jonathan and Lindas,

Happy new year! Hope this finds you well and rested after the holidays!

Per the below, I wanted to share some updates regarding the City's submission of an updated Host City Human Rights Action Plan to FIFA, as well as next steps so that we're all aligned and can appropriately coordinate.

Status update and timelines

We submitted an updated draft of our Host City Human Rights Action Plan to FIFA this past Monday, which incorporates the feedback we've received from several parties, including yourselves, the Office of the BC Human Rights Commissioner, MST, Urban Indigenous and Vancouver Downtown Eastside community organizations. We expect to receive another round of feedback from FIFA in the coming weeks, which we will use to refine the plan before publishing a V1 action plan on February 16th. FIFA will be organizing a call with all host cities at the end of this month to align on the communications plan surrounding the publishing of these plans. Once we receive FIFA's next round of feedback, we would be happy to organize a comms call between City and Province to coordinate on planning.

All host cities are encouraged to continue to update their V1 plans after this publishing date, in preparation of publishing finalized plans on May 11th. We certainly plan on conducting further consultation, as well as updating our plan in advance of the May 11th date. Our approach to how feedback will be gathered and incorporated into V2 will be informed by what response to the V1 release looks like, but generally, we do plan on looping back with the organizations we've already connected with.

The current draft is attached for your reference.

Incorporation of Provincial feedback

I see below that Kim has requested that we indicate which pieces of Provincial feedback were incorporated and which were omitted in the current draft of the Action Plan. I'm attaching the V2 Action Plan that was marked up by you, with responses from me, which was previously shared with you on October 21, 2025. We have incorporated your feedback where appropriate (I believe there were three additional small areas where I may have missed your feedback that Andrea has subsequently incorporated), and below is a summary of the feedback areas that we have not incorporated in this current draft along with rationale.

Hi Jill and all,

We've just spoken to FIFA Canada and they have confirmed that all Host Cities will be required (by FIFA) to publicly publish their V1 Human Rights Action Plans on February 16th.

s.16(1)

All Host Cities are encouraged to continue to update their V1 Action Plans after the release date, in collaboration with relevant stakeholders, in preparation for the publication of Final Human Rights Action Plans on May 11th – this is something we will definitely do.

We have submitted our V1 Human Rights Action Plan to FIFA yesterday (their deadline) for their review and expect to receive their feedback in a couple of weeks.

s.13(1), s.16(1)

Once we get the final round of feedback from FIFA, we can organize a separate comms call to prepare for February 16th.

Thanks for this summary, Kim.
Renee and Jessie, thank you for including Government Communications & Public Engagement in your planning and when disseminating information.

The speech from the throne is Feb 12 and BC Budget Day is Feb 17. The Province issues a blackout period for announcements during Budget, which, although not announced yet, can be assumed to be Feb 12-20. There is no break from session in Feb this year.

Hi Jessie and Renee – I hope you had a restorative break over the holidays. Let's hope 2026 is a great one for all of us.

Jessie, following up on your request below, s.13(1), s.16(1)
s.13(1), s.16(1)

s.13(1), s.16(1)

2. Provincial timeline: budget and estimates period (late February through April/May)

- The provincial budget is typically released on the 3rd or 4th Thursday in February (TBC).
 - ***The provincial budget is a major government announcement triggering a coordinated communication effort across all ministries to explain spending plans and priorities to various audiences.***
 - **NB:** TACS is one of many with ties to FWC26, including Transportation (TRANS), Public Safety and Security (PSSG), Attorney General (AG) Finance (FIN), etc.
 - All ministry communications are vetted and coordinated through central government to ensure coordination.
 - Jill Nessel (TACS comms director) works with this central agency to coordinated comms. She collaborates with comms directors in other ministries with ties to FWC26 (e.g., FIN, PSSG, TRANS, etc.).
- Following release of the provincial budget, we move into “estimates debates”
 - This is when Ministers are questioned by the opposition about their ministry’s estimates for the year. Frequently estimates are not used to debate the budget but rather policy direction. These debates are televised. It’s common for a ministry to be in estimates for several days.
 - It’s expected FWC26 will be a topic of interest in this year’s estimates debates across multiple ministries.
 - **NB:** For example we can anticipate:
s.13(1)

s.13(1)

- We will be preparing our Minister to answer FWC26 related questions starting early to mid-February.
- TACS program and comms staff will be preparing QA material to support all manner of FWC26 related Qs that could arise across government though estimates.

s.13(1), s.16(1)

3. TACS communications and issues management process

- Provincial government communications (e.g., ministry announcements such as TACS public update on FWC26) are calendarized centrally.
- This means, Jill Nessel – TACS comms director – coordinates all TACs announcements/news releases, etc. through central government.
- To support this process, it's important we (TACS program area and the City) engage Jill and her team regularly to ensure awareness of planned announcements so she can secure an approved date for the announcement and clear through issues.
- **NB:** Jill also leads on issues, ensuring our Minister is supported on potential issues and central government is aware. Program area, including myself, works collaboratively with comms to manage issues and to support the minister.

WE ARE VANCOUVER™

As much of the Action Plan was developed leveraging existing practice, consultation largely focused on internal subject matter experts. That said, the Host Committee consulted with hosting partners, public agencies, Vancouver Civic Advisory Committees, and key community organizations in the development of the Action Plan.

Hi there,

Thank you again for sharing Vancouver's draft action plan. The draft plan is in a strong place and we appreciate the work the City continues to put into its development.

Attached is a summary of our feedback, along with a tracked changes version of the Action Plan noting spelling/grammatical revisions. Please note we are still awaiting feedback from the Canadian members of the Human Rights Advisory and Accessibility Board, and I will share that with you as soon as it's available.

As discussed, the working timeline for publication of the V1 Action Plans is the week of **February 16**.

If you have any questions or would like to discuss the feedback in more detail, I'm happy to connect.

Thanks again,
Danielle
