Location	Notes
1. McCleery Golf Course	Golf courses have their consumption monitored over the summer, meters are read monthly, and they report their irrigation water use. McCleery has a ground water pump that might have been operating in 2025, as well as a stream that flows into its irrigaiton pond supply. Non-potable use was estimated by subtracting their potable water use from their reported irrigation use
2. Granville Island Water Park (where available)	Not monitored by City of Vancouver
3. Trout Lake	Assuming that you mean John Hendry Park, where there are meters for the community centre, irrigation, lake input. The baseball building at 15th and Garden was not metered until late 2025 so that is not included
4. Everett Crowley Park (specifically the area around Avalon Pond)	Park does not have a potable water service
5. Charles Park	
6. Vanier Park	Included. An additional irrigation connection in front of the Archives was discovered late 2025, and is not yet metered
7. Queen Elizabeth Park (specifically the area around the Duck Pond)	Meters being installed early 2026 for lawn bowling clubhouse, pitch and putt clubhouse and washrooms, and work yard and its washroom
8. Cariboo Park	
9. Jericho Beach Park	The pond has no known dedicated water input
10. Rupert Park Pitch & Putt
