PART I: ARCHITECTURAL

Appendix F: Page 1 of 59
Appendix F: Page 8 of 59
GENERAL NOTES:

1. Drawings are not to be scaled. Contractor will verify all existing conditions and dimensions required to perform the Work and will report any discrepancies with the Contract Documents to the Architect before commencing work.

2. The Architectural Drawings are to be read in conjunction with all other Contract Documents including the Project Manuals and the Structural, Mechanical and Electrical Drawings. In cases of difference between the Consultants' documents with respect to the quantity, sizes or scope of

3. Positions of exposed or finished Mechanical or Electrical devices, fittings and fixtures are indicated on the Architectural Drawings. Locations shown on the Architectural Drawings shall govern over Mechanical and Electrical Drawings.

4. Dimensions indicated are taken between the faces of finished surfaces unless otherwise noted.

5. The architect has not been retained for supervision of construction and assumes no responsibility for means, methods and techniques of construction.

6. These documents are not to be used for construction unless specifically noted for such purpose.

GENERAL NOTES:

1. Drawings are not to be scaled. Contractor will verify all existing conditions and dimensions required to perform the Work and will report any discrepancies with the Contract Documents to the Architect before commencing work.

2. The Architectural Drawings are to be read in conjunction with all other Contract Documents including the Project Manuals and the Structural, Mechanical and Electrical Drawings. In cases of difference between the Consultants' documents with respect to the quantity, sizes or scope of work, the greater shall apply.

3. Positions of exposed or finished Mechanical or Electrical devices, fittings and fixtures are indicated on the Architectural Drawings. Locations shown on the Architectural Drawings shall govern over Mechanical and Electrical Drawings. Mechanical and Electrical items not clearly located will be located as directed by the Architect.

4. Dimensions indicated are taken between the faces of finished surfaces unless otherwise noted.

5. The architect has not been retained for supervision of construction and assumes no responsibility for means, methods and techniques of construction.

6. These documents are not to be used for construction unless specifically noted for such purpose.
