**Subject:** Jericho Lands Policy Statement: Phase 3 Public Engagement Update

Dear Commissioners,

The purpose of this email is to let you know that Phase 3 of engagement for the City-led Jericho Lands Policy Statement is currently underway. Details for all engagement activities are available on the [Shape Your City project page](#):

- Phase 3 online kick off event occurred on October 18, 2021
- A Shape Your City survey - open until November 14, 2021
- “Pop up” remote office hours in the neighbourhood - until November 10, 2021

The landowners’ design team, working in consultation with City and Park Board staff, have created two conceptual site options. These site options are an illustration of how ʔəy ʼalməxʷ/ly ʼalməxw / the Jericho Lands could look in the future. Feedback received in this round of engagement will be used with other inputs in the creation of a preferred concept. Following additional public engagement, this preferred site concept will form part of the Jericho Lands policy statement upon which Council is anticipated to make a decision in 2022.

Additional project information, including details on Park Board staff involvement in the Policy Statement and staff’s intentions for a future park master planning process at Jericho, Locarno, and Spanish Banks Beach Parks with the Musqueam, Squamish and Tseil-Waututh Nations, is available in the Board briefing memo issued on June 23, 2021.

Regards,

Donnie
