Subject: Stanley Park 2020 Survey Data Analysis Report & 1996 Transportation & Recreation Report

Dear Commissioners,

This email is to inform you that we have received the final report from Qualitas Research Ltd. with the detailed [Data Analysis for the 2020 Stanley Park COVID-19 Pandemic Response Survey](#) that was open to the public from August 25 to September 20. A public link to this report has been added to the Park Board [meeting page for November 23, 2020](#), which is when the [Mobility in Stanley Park: Survey Results, Data Analysis and Next Steps](#) were presented.

Over the past three months, considerable additional work was completed on formatting for clarity, and on a full analysis of the 10,000+ “open-ended” response questions and written comments. This information has been incorporated into the [final report](#), which includes an introduction to the survey, methodology for the analysis, and the survey results. There are also two appendices: Appendix A – Respondent Profile, and Appendix B – Data Cleaning Process.

Additionally, in response to a Commissioner enquiry, I have also included a link to a [1996 Stanley Park Transportation and Recreation Report](#) for your reference.

Please feel free to contact me directly with any questions.

Regards,

Donnie
