

# 1

## Introduction

# Start Here

The City of Vancouver is undertaking a governance review of Hastings Park and is interested in your input on the proposed refined draft structure to replace the existing structure.

Governance is the mandate, processes, behaviours, decisions and practices used to inform, direct, manage and monitor the activities of an organization.

When adopting the Hastings Park/PNE Master Plan in Dec 2010, Council directed staff to conduct a governance review.

Your input is important. It will assist in further refining the draft structure.

City Council will consider the new structure in June.
