

RENTER SERVICES GRANTS INFORMATION GUIDE

This Info Guide provides information about the objectives, criteria and application process for the Renter Services Grants program. Renter Services Grants are one of many grant streams offered by the City of Vancouver. Information about other social grant programs can be found on the City's web page at: <https://vancouver.ca/people-programs/community-grants.aspx>

Introduction

Renter Services Grants: Our Statement of Intent

Renter Services Grants are investments that contribute to improving rental housing outcomes for renters in Vancouver. They support non-profit community-based programs that assist and empower Vancouver renters to **understand their rights, pursue their rights, and/or retain their housing**. Renter Services Grants are intended to augment and enhance, not simply maintain, an organization's capacity to support renters.

Renter Services Grants:

- Respond to dynamic needs of renters in Vancouver;
- Address equity by reducing the impact of systemic barriers that create conditions of vulnerability for renters;
- Facilitate partnerships and networks between the City, other levels of government, business and non-profits;
- Inform and respond to Council priorities on supporting renters, including the provision of direct services that will improve housing outcomes for renters, and non-profit actions that will create positive systemic change for renters; and
- Increase an organization's capacity to support and/or advocate for the needs of Vancouver renters.

Renter Services Grants Priorities

Renter Services Grants provide funding for projects that address inequity and mitigate conditions that create vulnerability for Vancouver renters. **Priority consideration is given to projects or services that meet the following:**

- Align with the Renter Services Grants Statement of Intent (noted above);
- Reinforce or support the goals of Council-approved actions to support Vancouver renters;
- The primary function is to provide supplemental supports and/or remove barriers to ensure equitable access to services and opportunities for renters in Vancouver;
- The primary focus is renters who are experiencing social, physical, and/or economic disadvantages and/or who face discrimination, particularly those living in private market rental housing.
- Because of limited funding of this grants program, applications with services that support renters living in private market rental housing will be prioritized.
- Use one or more of the following approaches to improve housing outcomes for renters:
 - Service-oriented, and aimed at reducing the barriers to equity; OR
 - Systemic or individual advocacy aimed at securing services and protecting rights; OR
 - Community development which empowers and involves equity denied renters in solving social problems, bringing about positive social change, and extending participatory democracy.
- Use one or more of the following strategies to improve housing outcomes for renters:
 - Organizing/mobilizing volunteer resources; OR
 - Developing mutual support (e.g. coalition building, collaborative projects) among groups, individuals and group support systems; OR
 - Facilitating improved access to renter services; OR
 - Building the capacity of individuals or families who rent to address the causes of rental housing instability; OR
 - Developing or supporting new service delivery models; OR.
 - Delivering community-based workshops, conferences, or other non-formal educational opportunities for renters and/or renter advocates; OR
 - Undertaking focused research to better understand systemic challenges experienced by renters and opportunities for system change.

Applicants must demonstrate that the approaches and strategies proposed will demonstrably increase an organization’s capacity to support and/or advocate for improved housing outcomes for renters. Additionally, applicants are encouraged to identify the measurable potential impact their project will have on the broader renter community in Vancouver.

Principles for Grant Making

- **Accountability:** We embrace ongoing feedback loops with partners to understand City investments and how they influence change.
- **Equity and Inclusion:** We strive to build equity in our communities by making grant processes accessible, especially for groups that experience exclusion.
- **Transparency:** We are open, transparent, and consistent with our grant making processes.
- **Informed Decision-Making:** We inform our grant making using evidence-based research, and consider all data sources, both formal and informal.
- **Balanced Investment Approach:** We balance short, medium and long-term investments so that, while addressing immediate concerns, we never lose sight of our goal of effecting lasting systems change.
- **Diversity and Reconciliation:** Our grants recognize the unique strengths of our many diverse communities by fostering relationships, helping heal the past, and moving forward with shared understanding and respect – working with the context of Vancouver as the unceded homeland of the Musqueam, Squamish and Tsleil-Waututh Nations.
- **Strategic Alignment:** Our grants demonstrate alignment with Council priorities for renters and related strategies and initiatives.
- **Partnerships:** Our relationships with our community and funding partners are based on trust, respect and transparency.

Fairness and Equity

Renter Services Grants provide funding for projects that addresses inequity and mitigates conditions that create barriers to equity for Vancouver renters. Throughout the application applicants are encouraged to link their work directly to achieving this goal.

The City of Vancouver has developed an Equity Framework to address systemic racism and to reduce barriers for those who have historically experienced the most exclusion, violence and harm.

This framework is an internal document that will shape how the City, as an employer and policymaker, provides additional supports for equity-seeking groups in order to advance fair conditions for all people.

For more information about the City's approach, we invite you to read more about the many steps that the City of Vancouver is taking to address racism and inequality:

Review Process, Amount

Review Process

Applications will be reviewed and assessed using standard criteria by a team of City staff. If a reviewing planner has questions, they may call an applicant for clarification. Staff will present funding recommendations to City Council for approval typically in late February/early March. Applicants will be notified of staff recommendations via email one week prior to the meeting at which Council considers the grant recommendations.

As the review and recommendation approval process leading up to the final decision by Council is extensive, there is no appeal process for grant decisions.

Term of Renter Services Grants

The term of a Renter Services Grants is one year. Grants typically will be disbursed in late March/early April in one full payment immediately following Council approval. Exceptions will be discussed on an as needs basis with grant recipients.

Amount of Renter Services Grants

The number of projects funded — and, therefore, the size of any one grant — is not predetermined, but will be considered in context of the number and quality of applications received. We anticipate grants could be in the range of \$5,000 to over \$50,000. Requests for smaller or greater amounts will be considered depending on the scale and impact on housing outcomes for renters.
