The City of Vancouver has implemented a tax on empty or under-utilized residential properties called the Empty Homes Tax or Vacancy Tax.

- In addition to paying your Property Tax, you are required to submit a property status declaration by February 4, 2019 to determine if your property is subject to the Vacancy Tax.
- Failure to declare will result in your property being deemed vacant and subject to a Vacancy Tax at a rate of 1% of the property's 2018 taxable value.
- Please refer to the enclosed insert for instructions on how to complete your declaration or visit vancouver.ca/ehs for more information.
