- Recording
 - We will be recording this session today and posting it to our [website resources](#)
- Q&A
 - Use the chat function to ask questions during the presentation
 - For designated Q&A sections, raise your hand using the raise hand feature in teams

Policy Overview

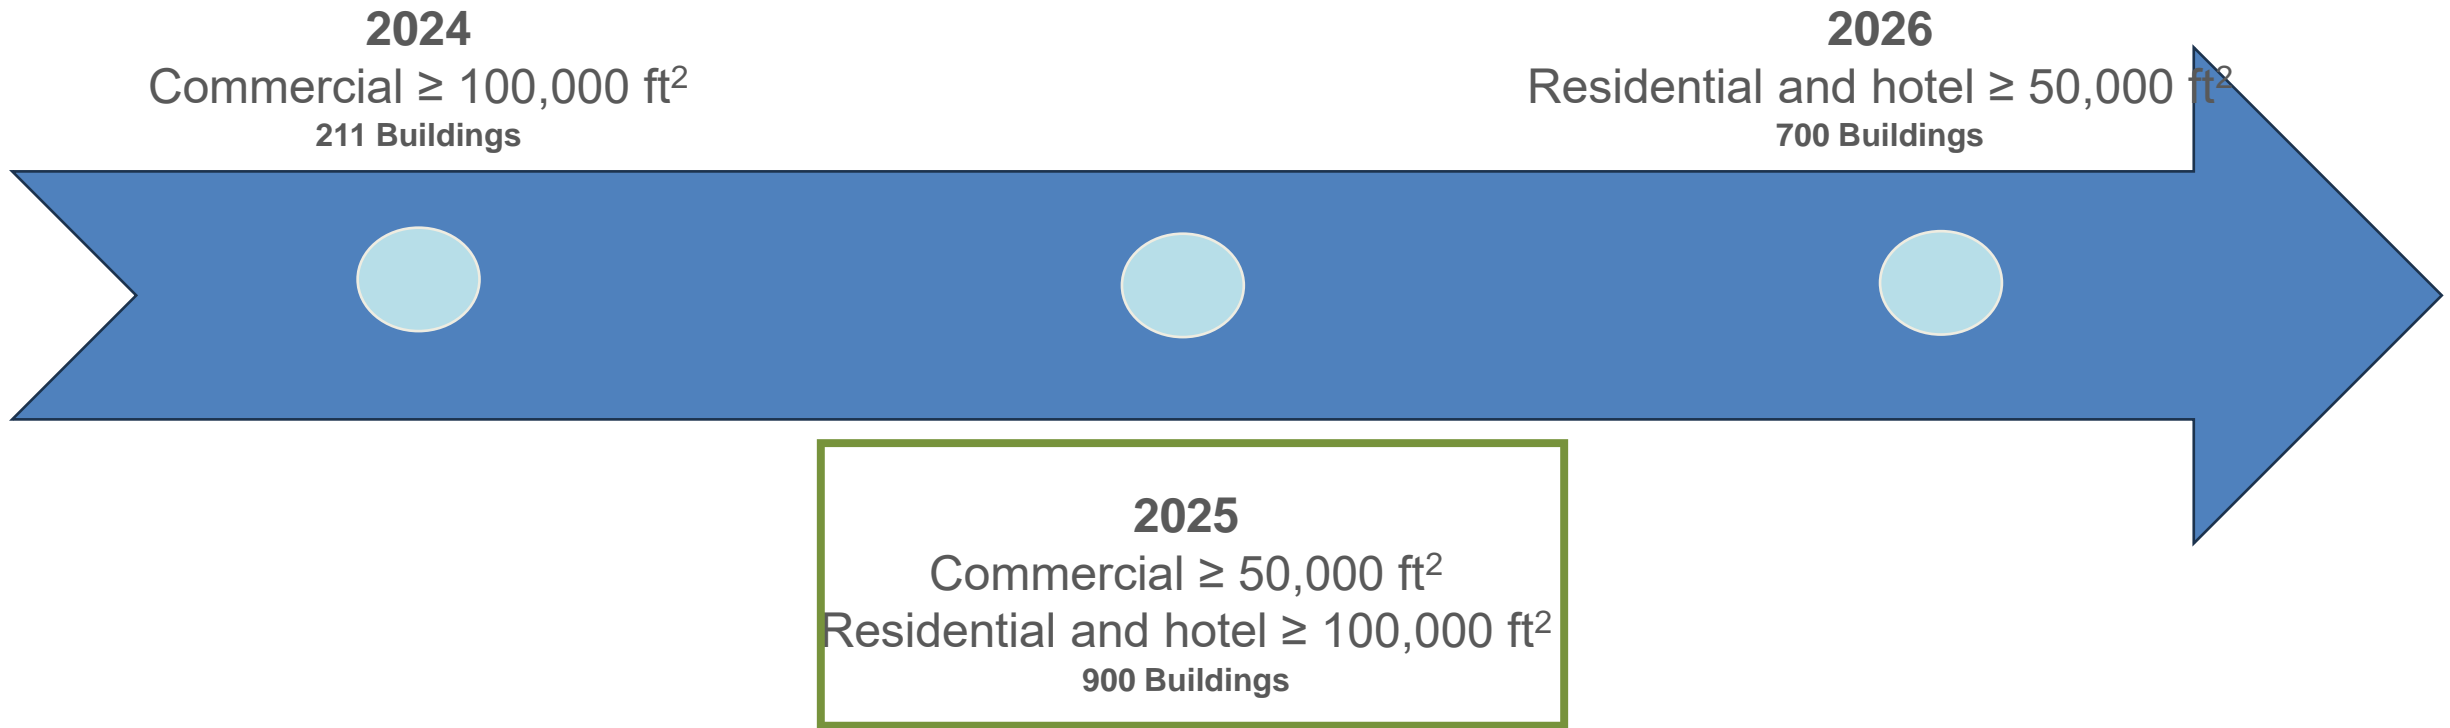

GHG By-Law

- Establishes energy and carbon reporting rules for large commercial & residential and hotel buildings
 - Energy & Carbon Reporting (ECR)
 - Commercial & residential and hotel buildings $\geq 50,000$ ft²
- Goal to cut emissions from all buildings 50% by 2030 and 100% by 2050

Energy & Carbon Reporting (ECR) Timeline

ECR Compliance and Enforcement

To comply in 2025, commercial buildings 50,000-99,999 ft² & residential and hotel buildings 100,000 ft² and larger must **submit an annual error free energy and carbon report** containing building energy use from the previous year (365+ days) **by June 1**

- All reports will be reviewed and owners will be notified of the report status by email
 - **Pending Revisions:** Report contains errors. To reach compliance, the owner must resubmit an updated report or provide an explanation for the errors identified
 - **In Compliance:** No errors are found and report is approved
- If a building remains non-compliant by-law ticket(s) (\$500) will be issued.

Energize Vancouver
