E - ASSESSMENT

A selection committee made up of artists, Park Board and community centre staff, and community members will determine the artists and/or artist teams awarded these residencies. The selection process will include interviews with short-listed artists.

The assessment will be based on:

- Artistic merit based on previous work and work that has been created with community members (as indicated in CV and submitted support materials);
- Demonstrated understanding the goals of the AIC program in approaching creative work in community;
- Demonstrated history of previous experience in community-engaged arts practices;
- Innovative ideas suitable to the uniqueness of Community Centre issues and interests;
- The project's ability to support the efforts of equity deserving artists and artists from diverse communities;
- The overall proposals potential for meeting community cultural development (CCD) goals.

Community Cultural Development (CCD) Goals

- Support artists working in community contexts;
- Provide a framework for creative collaboration between artist and communities;
- Encourage and support artistic projects which leave a physical and/or social legacy in the community;
- Make our communities more vibrant;
- Inspire participation and relationship-building;
- Engage communities and people – even those who don't see themselves as artists – as creators, producers, performers, and active audiences.
