

Carbon Monoxide Alarms

Carbon Monoxide is a Colourless and Odourless gas. Without a CO alarm in your home, you may not get the early warning of higher levels of CO detected that you need to stay safe.

Did you know that having a CO alarm in your home is now a Bylaw in Vancouver?

Do you have an attached garage?

A gas burning appliances?

Live close to the Main road?

Have a shared wall or floor with a parking garage or room with a fuel fired appliance?

Then you are at higher risk for CO poisoning in your home.

When you hear the alarm, get out of your home

Symptoms of CO poisoning

Dizziness

Nausea and Vomiting

Confusion

Weakness
