This is a list of suppliers\* that provide rainwater detention tanks to help owners meet the requirements for new low-density developments in Vancouver.

It is an owner's responsibility to install a rainwater detention tank that meets the requirements of Vancouver Building By-law Book II, Division B, Article 2.4.2.5.

**For details, scan the QR code or visit:**  
[vancouver.ca/rainwater](http://vancouver.ca/rainwater)

Be sure to consider the following with your detention tank:

- Cleanouts must provide access to the outlet and overflow.
- The detention tank must be able to support the design depth of cover and surface loads.

**Suppliers:** To be included in this list or to update information, please contact [rainwater@vancouver.ca](mailto:rainwater@vancouver.ca).

This list is revised periodically, as new information is received.
