This is a list of suppliers* that provide rainwater detention tanks to help owners meet the requirements for new low-density developments in Vancouver.

It is an owner's responsibility to install a rainwater detention tank that meets the requirements of Vancouver Building By-law Book II, Division B, Article 2.4.2.5.

For details, scan the QR code or visit:
vancouver.ca/rainwater

Be sure to consider the following with your detention tank:

- Cleanouts must provide access to the outlet and overflow.
- The detention tank must be able to support the design depth of cover and surface loads.

Suppliers: To be included in this list or to update information, please contact rainwater@vancouver.ca.

This list is revised periodically, as new information is received.
