

# Drake Street Upgrades

## What is happening on Drake Street?

The City is upgrading **Drake Street from Burrard Street to Pacific Boulevard**. This work will provide a safe and accessible cycling and micro-mobility route from the new Granville Bridge Connector to Yaletown, the West End and downtown.

## Improvements to intersections

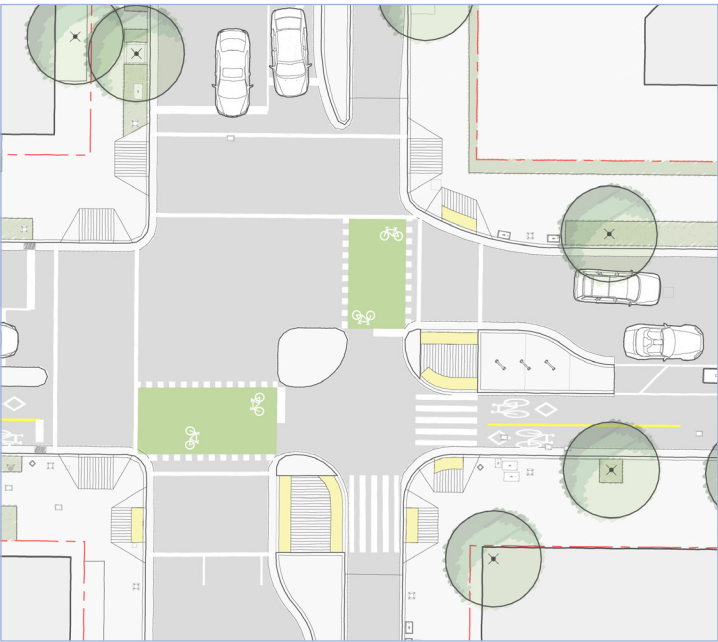

This design better separates drivers, cyclists and pedestrians at busy intersections.

### Protected intersections

The design includes physical separation at some intersections, such as raised concrete islands at corners. This includes the intersection with Richards Street (see right), Granville, Burrard and Hornby Streets.

### Green lights just for cyclists

These help cyclists pass safely through certain intersections where motor vehicle volumes are high. This includes the intersections with Howe, Burrard and Hornby Streets.

## Timeline

**2012: Public engagement to gather community perspectives**  
During the Comox-Helmcken Greenway engagement, staff heard a desire for a better onward connection east along Drake Street.

**2019: Public engagement on design options**  
Staff shared and heard community feedback on two street design options.

**2020: Public engagement on a recommended design option**  
Staff shared a refined recommended design proposal, and made further adjustments based on additional community feedback.  
  
Design and construction proposals were then approved by Council.

**2021 - 2025: Delivery of Burrard to Granville St**  
Construction between Burrard Street and Granville Street completed.  
  
Granville Connector opens Summer 2025.

### We are Here!

**Summer 2025 - Spring 2026: Construction**  
Delivery of final improvements, at the Burrard intersection and between Granville Street and Pacific Boulevard

# Drake Street Upgrades

The design will include...

Granville Street to Hamilton Street

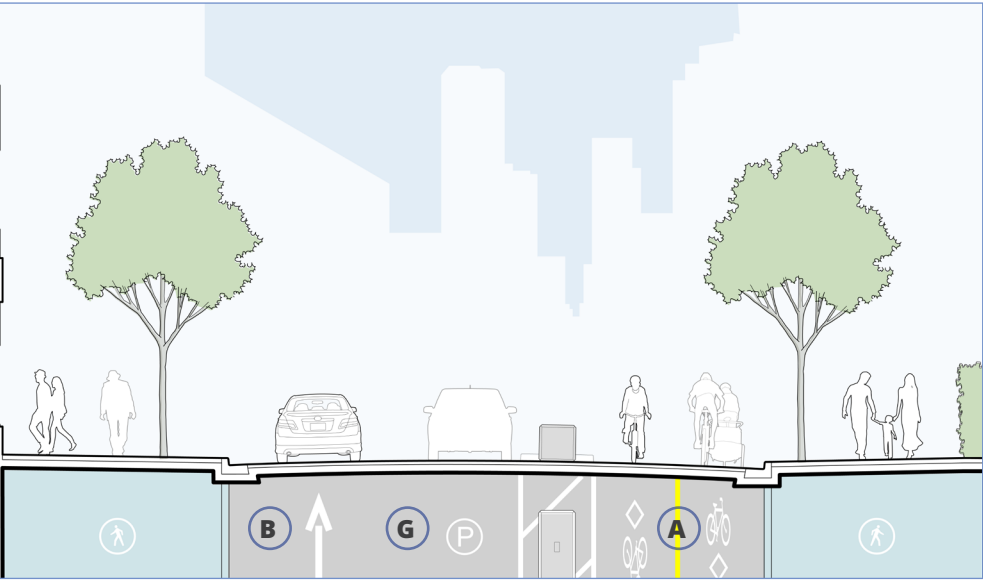

Hamilton Street to Pacific Boulevard

## Drake Street: Burrard Street to Hamilton Street

## Drake Street: Hamilton Street to Pacific Boulevard

## All blocks

- A** Bi-directional protected bike lane on the south side
- B** One-way street, with vehicle travel eastbound only

- C** One-way protected bike lane, for eastbound bike travel
- D** Westbound bike travel in mixed traffic lane, together with vehicles (low volumes)
- E** Two-way street for vehicles
- F** Westbound vehicles must turn right onto Hamilton Street

- G** Some on-street parking, passenger, and loading zones are provided in each block (usually on south side)
- Continued access to all driveways
