**RE: Hastings Transit Improvements Update**

Dear business owner or resident,

We are writing to provide an update on the proposed bus lane changes on Hastings Street between Kaslo Street and Boundary Road.

**We are pausing implementation of these bus lanes and associated parking changes while we further assess how bus priority measures can better support the corridor.**

The section of Hastings Street east of Kaslo Street will be reviewed as part of a broader Hastings corridor study planned for 2026/2027, which will include a technical analysis of transit priority options and consideration of economic factors and business needs. We will share updates as this work progresses.

In the meantime, TransLink will continue public engagement on proposed bus stop changes along the corridor, with additional details to be shared in May. TransLink is also adding new bus stops near Kootenay Street as part of the [R2 Marine-Willingdon RapidBus extension](#). These changes will improve regional transit connections to Hastings Street from the North Shore and Metrotown.

**What we heard**

In January 2026, the City asked businesses, residents and transit users for feedback on the proposed bus lane changes along Hastings Street between Kaslo Street and Boundary Road. Feedback highlighted a range of priorities, including transit, access and local business needs.

To read a summary of what we heard and how the feedback shaped the project, or to learn more about transit improvements along Hastings Street, visit [vancouver.ca/hastings-transit](http://vancouver.ca/hastings-transit) or scan the QR code below.
