

Shift Worker Support

If you work at times outside of 7:00 a.m.-6:00 p.m., then you know first-hand the challenge of fighting the body's natural wake-sleep pattern, and the strain shift work can put on your health, well-being, family, and social life. We can help you find solutions to your unique challenges.

Stay healthy and safe while working shifts!

- **Not getting enough sleep?** We can help guide you through small changes to make a big difference.
- **Stressed out trying to manage family and social life?** We can help you develop strategies to manage your responsibilities and your health.
- **Frustrated family members?** If you are looking for ways to keep your family relationships harmonious, we can offer helpful tips and tools.
- **Are you a woman working shifts and caring for a family?** Female shift workers have almost three times the number of accidents as male shift workers. We can help you stay safe.
