

LIQUOR LICENCE SIGN INFORMATION

Size

The standard size is 4' x 8'.

All variations to the standard size shall be referred to the Licence Coordinator for approval prior to installation.

Font

Font is to be Arial and is to be black on white background.

Installation

When placed on the ground, the sign should be supported only by posts or poles.

All signs must be installed in a sound, workmanlike manner, capable of withstanding wind and weather and must comply with the requirements of the Building Bylaw and Sign Bylaw.

Location

Signs must be placed so that they can be clearly read from streets or lanes, and be clear of all site obstructions.

When placed at ground level, the sign should be located within the site approximately but not closer than 10'0" from any property line. The top of a sign should not be fixed more than approximately 16'0" high. When secured to the face or outside of a building, the top of a sign should not be fixed more than approximately 16'0" high.

Notification of Installation

The applicant or agent must advise the Chief Licence Inspector and/or Licence Coordinator when the sign has been installed on the site. Our notification postcard to the surrounding residents and businesses, advising them of your application will not be sent until we receive written confirmation and as well as photographs of the installed sign.

Removal of Sign(s)

Sign(s) must remain in place until Council has given a decision in respect of the application and shall be removed no later than seven (7) days after the decision.
