

## Mechanical Permit

### Heat Pumps on Balconies and Decks (Multi-Family)

#### Heat Loss Calculation Alternative

---

The following information may be provided for heat pump installations on balconies or decks of multi-family units in lieu of heat loss calculations. This is only applicable for air-to-air heat pump systems (mini-split additions) serving a single dwelling unit. If requested by the inspector, full heat loss calculations to CSA F280 must be submitted.

Street Address: \_\_\_\_\_

Unit Number: \_\_\_\_\_

Area of Unit (m<sup>2</sup>): \_\_\_\_\_

Heat Pump Manufacturer: \_\_\_\_\_

Heat Pump Model: \_\_\_\_\_

Heating Capacity of Heat Pump: \_\_\_\_\_

Cooling Capacity of Heat Pump: \_\_\_\_\_
