

Mechanical Permit

Heat Pumps for existing single family homes, duplexes, and laneways
Heat Loss Calculation Alternative

The following information may be provided for heat pump installations on existing single family homes, duplexes, and laneways in lieu of heat loss calculations. This is only applicable for air-to-air heat pump systems (mini-split additions or supplementary forced-air furnace systems). If requested by the inspector, full heat loss calculations to CSA F280 must be submitted.

Street Address: _____

Are you replacing a natural gas system? _____

Area of building being heated or cooled (m²): _____

Heat Pump Manufacturer: _____

Heat Pump Model: _____

Heating Capacity of Heat Pump: _____

Cooling Capacity of Heat Pump: _____
