Why we are changing the green bin schedule

In recent months, labour and equipment shortages have resulted in service delays. The temporary change to a bi-weekly green bin schedule over the winter (Dec. 19 to Mar. 3, 2023) will provide more predictable service for residents, particularly during times when snow and ice impact our operations. An important consideration in the decision to change the green bin schedule is that in winter, green bin volumes are much lower due to fewer yard trimmings and colder temperatures help minimize odours. Thank you for your ongoing patience.
