

CITY OF VANCOUVER

Pay Transparency Report - 2024

City of Vancouver

The City of Vancouver is a large, complex municipal organization with employees working across a number of different departments providing a wide range of services and programs to residents, businesses and visitors.

The City of Vancouver is committed to advancing reconciliation, equity, and anti-racism for all people in Vancouver. The City's [Equity Framework](#) along with a number of other strategies and actions focus on upholding the rights and dignity of all people, addressing historic, current systemic injustice, and reducing harm. This includes measuring, reporting on and taking actions to improve pay equity across all levels of the organization.

About this Report

The City of Vancouver (CoV) has a predominantly unionized workforce with 85% of employees belonging to a Union. For unionized roles where employees are performing the same work, women and non-binary employees receive the same rate of pay as men. Across the CoV, on average women are paid less than men who are typically over-represented in historically higher paying jobs in IT, engineering, trades and operations and firefighting. Non-binary employees tend to have fewer years of service than other employees, which may contribute to their lower average rate of pay, as progressing through pay ranges takes time.

In preparing this report, the City of Vancouver surveyed staff to both confirm gender identity and obtain consent for the use of this information in this report. The response rate from staff was low, with only 17% providing consent for the use of their gender identity for the purposes of this report. This resulted in a large proportion of the workforce's gender data being classified as Prefer not to say / Unknown. The City of Vancouver hopes to build on this data set in subsequent reporting years.

Not only was the overall gender identity response rate low, but the response rate from some employee groups was disproportionately low likely due in large part to the fact that some front line/operational employee groups have limited network access and communication with these groups is challenging. For example, only 2% of outside operational staff responded to the request for gender identify information. This discrepancy likely further skewed some of the results within this report.

Employer details

Employer:	CITY OF VANCOUVER
Address:	453 W 12th Ave, VANCOUVER, BC
Reporting Year:	2024
Time Period:	January 1, 2024- December 31, 2024
NAICS Code:	91 - Public administration
Number of Employees:	1000 or more

Hourly pay

Mean hourly pay gap¹

In this organization women's average hourly wages are 8% less than men's and non-binary people's average hourly wages are 23% less than men's. For every dollar men earn in average hourly wages, women earn 92 cents and non-binary people earn 77 cents in average hourly wages.

Median hourly pay gap²

In this organization women's median hourly wages are 12% less than men's and non-binary people's median hourly wages are 26% less than men's. For every dollar men earn in median hourly wages, women earn 88 cents and non-binary people earn 74 cents in median hourly wages.

Explanatory notes

- 1. "Mean hourly pay gap" refers to the differences in pay between gender groups calculated by average pay. Hourly pay does not include bonuses and overtime.
- 2. "Median hourly pay gap" refers to the differences in pay between gender groups calculated by the mid range of pay for each group. Hourly pay does not include bonuses and overtime.

Overtime pay

Mean overtime pay ³

In this organization women's average overtime pay is 47% less than men's and non-binary people's average overtime pay is also 37% less than men's. For every dollar men earn in average overtime pay, women earn 53 cents and non-binary people earn 63 cents in average overtime pay.

Median overtime pay ⁴

In this organization women's median overtime pay is 36% less than men's and non-binary people's median overtime pay is 29% more than men's. For every dollar men earn in median overtime pay, women earn 64 cents and non-binary people earn \$1.29 in median overtime pay.

Mean overtime paid hours ⁵

Difference as compared to reference group (Men)

Women	-26
Non-binary	-22
Prefer not to say / Unknown	35

In this organization the average number of overtime hours worked by women was 28 less than by men and the average number of overtime hours worked by non-binary people was 29 less than by men.

Median overtime paid hours ⁶

Difference as compared to reference group (Men)

Women	-6
Non-binary	3
Prefer not to say / Unknown	17

In this organization the median number of overtime hours worked by women was 8 less than by men and the median number of overtime hours worked by non-binary people was 2 less than by men.

Explanatory notes

- "Mean overtime pay" refers to overtime pay when averaged for each group.
- "Median overtime pay" refers to the middle point of overtime pay for each group.
- "Mean overtime paid hours" refers to the average number of hours of overtime worked for each group.
- "Median overtime paid hours" refers to the middle point of number of overtime hours worked for each group.

Percentage of employees in each gender category receiving overtime pay

Bonus pay

Mean bonus pay ⁷

This measure cannot be displayed because there is insufficient data to meet disclosure requirements.

Median bonus pay ⁸

This measure cannot be displayed because there is insufficient data to meet disclosure requirements.

Percentage of employees in each gender category receiving bonus pay

This measure cannot be displayed because there is insufficient data to meet disclosure requirements.

Explanatory notes

7. "Mean bonus pay" refers to bonus pay when averaged for each group.
8. "Median bonus pay" refers to the middle point of bonus pay for each group.

Percentage of each gender in each pay quartile ⁹

Upper hourly pay quartile (highest paid)

Upper middle hourly pay quartile

Lower middle hourly pay quartile †

Lowest hourly pay quartile (lowest paid) †

In this organization, women occupy 15% of the highest paid jobs and 4% of the lowest paid jobs.

† This pay quartile was reduced to suppress gender categories consisting of less than ten (10) employees.

Data constraints

- The City of Vancouver was not able to use existing gender information and efforts to collect gender identity information resulted in a very low response rate.
- Only 17% of City staff provided consent for the use of their gender identity for the purposes of this report, which included 49% of senior exempt staff, 44% of exempt staff and 14% of unionized staff.
- A large proportion of the workforce does not regularly connect to the City of Vancouver's network which makes reporting their gender identity more difficult.
- Auxiliary staff might not have been working during the survey period due to seasonal nature of their work.

Explanatory notes

9. "Pay quartile" refers to the percentage of each gender within four equal sized groups based on their hourly pay.
