

Powell Street Overpass Project

Local business and resident access plan (during construction)

- Local businesses and community organizations will remain open and accessible throughout construction
- Powell Street will be closed to traffic between Hawks Avenue and Clark Drive, allowing business and local traffic access only
- Commuter traffic not destined for local businesses along Powell Street and Cordova Street will be encouraged to use alternative arterial routes
- Modifications will be made to the Hastings/Clark and Hawks/Hastings intersections to facilitate this detour in advance of major construction
