Completion of the Seaside Greenway

Construction begins January 18, 2014

Project Overview

Construction will start on Point Grey Road between Trafalgar and Alma on January 18, 2014 to complete the missing gap in the Seaside Greenway between Jericho Beach and Kitsilano Park.

Work includes converting Point Grey Road between Alma and Macdonald to a local street by closing Point Grey Road to vehicle through traffic at Macdonald. This will improve pedestrian and cyclist safety along the corridor and complete the Seaside Greenway.

When complete, this project will:

- Improve safety for all road users by reducing the speed and volume of vehicles along Point Grey Road.
- Provide a safe, convenient and comfortable connection for pedestrians and cyclists of all ages and abilities between the Burrard Bridge and Jericho Beach.
- Provide the final link in the Seaside Greenway between Jericho Beach and Kitsilano Parks and by doing so provide better access to the many parks located along this stretch of Point Grey Road for everyone.

Businesses are Open:

Access to businesses and services including those located on Cornwall, York, Yew, 1st and Point Grey Road will be maintained throughout construction.

What to expect during construction:

During construction motorist travelling along Point Grey Road between Trafalgar and Alma can expect traffic changes, lane restrictions and intermittent delays and are encouraged to use alternate routes.

Transit along Cornwall and Macdonald will continue to operate as usual and any temporary changes will be communicated through TransLink and Coast Mountain Bus Company.

Access to local destinations and services along the corridor will be maintained for all modes of transportation. Please travel carefully through the worksite and pay attention to the signage and traffic control persons.
