## **SIGN CLASSIFICATION**

### **Regulatory Signs, Class R**

**RA:** Right-of-way control signs indicate the right of way for drivers on the approaches to an intersection, or for pedestrians at a crosswalk.

**RB:** Road use control signs indicate the permitted or prohibited use of a road. This sub-class includes signs relating to the control of speed, turns directions of travel, passing, traffic lane usage, vehicle weights and dimensions, parking, pedestrians and other road user.

**RC:** Miscellaneous regulatory signs indicate regulations that are not otherwise provided for in Class R.

### **Warning Signs, Class W**

**WA:** Physical conditions signs indicate features or conditions of the road itself.

**WB:** Traffic Regulations ahead signs provide and advance Warning of a traffic regulation on a road.

**WC:** Intermittent or moving hazards signs indicated the possibility of a situation that may require a driver response.

**WD:** Miscellaneous warning signs indicate warnings that are not otherwise provided for in Class W.

## Guide and Information Signs, Class I

**IB:** Route marker signs indicate numbers, names or other designations of roads.

**IC:** Off-road services signs indicate the availability of, and direction to, off-road services or recreational facilities.

**ID:** Miscellaneous information signs indicate information that is not otherwise provided for in Class I.

## Temporary Conditions Signs, Class TC

**TC:** Temporary conditions signs and devices are used to regulate, warn and guide drivers in work zones where construction, maintenance or utility activities, or other temporary and unusual conditions are on or adjacent to the road.
