Sign Permit Application City of Vancouver

The Sign By-law regulates signs on private property. For information on allowable signs and requirements, review the Sign By-law at: http://vancouver.ca/your-government/sign-bylaw.aspx

Most sign types require permits, except for signs listed in section Part 6 of the Sign By-law. In addition signs to be located on protected heritage sites require a Heritage Alteration Permit.

To apply for a sign permit, submit this form along with the additional documents listed on this form, or register for an online account and submit your application at: https://vancouver.ca/permits/apply/login

An application fee is required at the time of application. Information on required fees is found in the Sign Fee By-law, and there is information on this available at: http://vancouver.ca/doing-business/sign-permit.aspx

Incomplete applications cannot be processed and will be returned to the applicant.
