

Smoke Alarms

Smoke alarms are life saving devices, they are the only thing that will wake you up in the middle of the night if there is a fire in your home.

You need to make sure they are working:

Test them monthly

Change the batteries 2x a year

Change the smoke alarm every 10 years

Step 1: Make sure they are placed on or near the ceiling

Step 2: Press the "test" button - Make sure it makes a noise

Step 3: *If it makes noise, it's working.

*If it doesn't - change the battery

*If it's not battery powered, change the smoke alarm.
