

TDM Plan B – Bike Infrastructure Package

Pre-Submittal or Application Number:	
Project Address	
Date of Submission	

Prior to issuance of a Development Permit, the applicant should complete the following criteria. Every box must be checked in order to complete the TDM Plan. Please ensure that every criteria on the following checklist is understood and/or completed before submitting the TDM Plan

- Demonstrate in the architectural set (in the technical statistics table and the drawings) that the following are provided beyond the minimum requirements defined in the Parking By-law:
 - A minimum of 40% more Class A bicycle parking is provided;
 - A minimum of 10% additional bike lockers are provided (calculated after applying the 40% additional Class A bicycle parking spaces); and
 - A minimum of 5% additional oversized bicycle parking spaces (calculated after applying the 40% additional Class A bicycle parking spaces).
- Demonstrate in the architectural set that the following requirement for Class B bicycle parking is provided:
 - 100% of Class B bike parking is weather protected

Required attachments:

None.
