

Villages

The community plan will help foster three distinct, memorable and vibrant village areas.

Village Character

Three distinct villages help knit the community together and provide opportunities for locals and visitors alike to shop, work, and play.

Emerging Village Directions

- Recognize and celebrate three distinct and vibrant West End villages.
- Maintain lower building heights in the villages.
- Limit residential development to support the viability of businesses.
- Establish strong pedestrian and transit connectivity to link the villages together as distinct destinations along the 'West Loop'.
- Work with community partners (BIAs, local businesses, etc.) to foster vibrant local business areas for people to shop, work, and play during the day and night.
- Ensure land use policy and regulations support local business operations and viability.
- Explore opportunities to widen sidewalks and strategically locate new public spaces.
- Consider removal of rush-hour parking regulations for Davie, Denman and Robson Streets as an opportunity to widen sidewalks, increase on-street parking and provide opportunities for parklets.

"Widen the sidewalks and improve on-street parking."

"Create vibrant neighbourhood centres."
