

BlockWatch Information Notice #10

The quick actions of a neighbour recently foiled a robbery attempt. On December 31, 2007 around 6:00 p.m., a resident in Harbour House (1920 East Kent) witnessed a suspect pry open the patio door of a ground floor suite in Pilot House (1880 East Kent) and enter the suite. The resident called the police and then Mike W, building manager for Pilot House. The police arrived and with the assistance of the dog squad, brought the suspect out of the suite. The thief was arrested and taken away.

The observant neighbour deserves a hearty *Good work!* from the community. This is exactly the type of action that BlockWatch encourages. If you see something suspicious, call the police immediately. If there are other people who should be informed, do this after the police have been notified.
